This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

ANNUAL REPORT

OF THE

STATE TAX COMMISSION

ALBANY, N. Y., *February* 2, 1920

To HON. HARRY C. WALKER, *President of the Senate:*

SIR.— We have the honor herewith to transmit our annual report for the year 1919.

WALTER H. KNAPP,
President.

JOHN J. MERRILL,
M. J. WALSH,
State Tax Commission.

ANNUAL REPORT

ALBANY, N. Y., *February* 2, 1920

To the Legislature of the State of New York:

The State Tax Commission respectfully submits for the consideration of the Legislature the following report for the year 1919:

The year 1919 is in many respects notable for sane and progressive legislation in tax matters. It is the belief of the Commission that no year since the passage of the special franchise act in 1899 has shown more important results than the year just past.

The Personal Income Tax

In its last annual report this Commission stated: "We believe that the time has come to enter upon a more scientific method of raising revenues for State and locality and for the relief of real estate. In this connection the Commission recommends the enactment of a general personal income tax law at a low rate, which will be a tax on income after it is received by the taxpayer, based upon the taxable ability of the recipient of such income."

The Commission not only recommended the enactment of such a law, but used every effort and influence in its power to make the proposed legislation an accomplished fact.

It was constantly in touch with the Legislative Committee headed by Senator Davenport and materially aided in the construction of the act which was destined to become historical in tax legislation in this State. The Commission was not actuated by any selfish motives in the assistance it gave to the Joint Tax Committee of the Legislature, and notwithstanding the fact that the Legislature saw fit to transfer the administration of this law

to the office of the State Comptroller, it is the wish of the Commission to cooperate in every way to make that administration a distinct success.

Some changes, however, were made in the act just before its final passage which particularly affect the jurisdiction of the State Tax Commission and which it deems proper to refer to for the purpose of securing suitable amendments thereto.

The insertion of the phrase "and from which any income is derived" in section 352 has resulted in great injustice to taxpayers and in no end of confusion. This phrase clearly refers to and qualifies all that precedes it to which it may be applicable. The result may be characterized as absurd and so inequitable that it should be stricken from the section by amendment before it can possibly be put into execution. For example, the owner of a thousand dollar bond receiving 5 per cent interest thereon is exempted from the personal property tax and will pay only on the income, and may even be exempted from the income tax if the total amount of his income does not exceed the deduction of the $1,000 or $2,000 allowed, as the case may be. If he pays on the income the tax will be 50 cents, $1 or $1.50 according to the rate at which he is taxable, while the owner of a bond which may still be worth par, but on which interest payments have been suspended, is held for personal assessment and must pay a tax at the prevailing rate, which in New York city would amount to about $24. Bank deposits drawing interest are exempt while the money which may have been received from income and taxable as such becomes taxable as personal property if it is not deposited at interest. By this process the owner of property not yielding an income may be taxed fifty times as much as the owner of similar property yielding an income.

Until this injustice is done away with by appropriate amendment the Tax Commission is obliged to advise assessors that they must include non-income producing intangibles in their assessments of personal property, unless, of course, they are securities that come within the definition of investments and have paid the tax under the Investment Tax Law.

The non-dividend paying stocks of corporations may also be treated as personal property and assessed as such. Prior to the

enactment of article 9-a of the Tax Law, the owners of stocks of such corporations liable to taxation on the capital were exempted from taxation on these stocks as personal property, but under section 219-j corporations subject to the corporation franchise tax based on income are not liable to taxation on their capital and hence not exempt under subdivision 16 of section 4 of the Tax Law. And if they produce no income, the owner may be taxed for the same as personal property at their market value.

We respectfully urge that the Legislature act speedily in correcting this great injustice.

When the Personal Income Tax Law was the subject of debate one of the urgent reasons given for its enactment was that intangible personal property, which was so irregularly and improperly assessed, should thereafter be exempted, and the objectionable phrase referred to was inserted at the last moment when there was no opportunity to discuss it.

There are other needed administrative changes in this law, but these do not come within the jurisdiction of this Commission.

The Assessment of Tangible Personal Property

Year after year this Commission has urged some modification of the law relating to the assessment of personal property, and now reiterates that either tangible personal property should be classified and assessed at a fixed and uniform rate or that it should be totally exempted from taxation. It is a matter of common knowledge that only a very small percentage of such property is assessed at all, so that whenever assessed it amounts to an injustice to the owner who happens to be caught by a conscientious local assessor.

The assessment of real estate is so irregular and so low in some localities that the tax rate is very high, being 6 per cent, 7 per cent or 8 per cent in some places. This results in personal property being almost entirely left off the roll. It is the opinion of the Commission that the revenue that would be derived from a classification and fixed low rate upon personal property would be far greater than that now derived from the present method of

assessment of personal property under the general law, and it is problematical whether the amount that might be received by any method of taxation is sufficient to offset the annoyance and expense of procuring the assessment. It is doubtful if the State will submit graciously to any form of listing system which would be absolutely necessary if tangible personal property were to be classified and fairly assessed. It is probable that a better compliance with the law requiring that real estate shall be assessed at full value can be obtained if the assessors are not required to search out and assess tangible personal property.

The Eighth State Tax Conference

The New York State Tax Association held its eighth conference in Chancellor's Hall, Albany, on January 22, 23 and 24, 1919.

The State Tax Commission co-operated and called a conference of local assessors and assessing officers pursuant to section 171-b of the Tax Law, to be held at the same time and place. This was the second conference under this law, and the Commission feels that very excellent results have been obtained from them. Four hundred and forty-six assessors and supervisors attended and registered, representing every county in the State, the largest attendance being twenty-one from St. Lawrence county. Livingston county sent nineteen, Westchester county twenty, Ontario and Ulster counties each sixteen. The principal subject for consideration was the desirability of the personal income tax in New York State and the attendance of the best experts and students of tax law was secured, and the result was the unanimous approval of the principle of such a tax by the conference. This was no doubt very helpful to the committee in charge of the legislation.

The attendance was a little more than 1,000 and the discussions showed a very general interest in the subject of taxation from every part of the State. The Legislature should provide funds to enable the Tax Commission to hold these conferences, publish their proceedings and participate in every way in making them a success.

Amendments to the Franchise Tax on Business Corporations

Another very important piece of legislation secured through the efforts of this Commission were the two amendments made to article 9-a of the Tax Law relating to the franchise tax on business corporations.

(a) The extension of this law to include substantially all business corporations.

(b) The minimum tax of $10 or one mill per share on corporations reporting no net earnings.

The result of these two amendments will increase the revenues of the State and locality by 14 or 15 million dollars annually. The results are shown more in detail under that part of the report relating to the Corporation Tax Bureau.

County Visitations

The Commission made the county visitations required by section 173 of the Tax Law in the following counties:

Cattaraugus	Lewis	Schenectady
Chenango	Livingston	Schoharie
Clinton	Monroe	Schuyler
Dutchess	Nassau	Steuben
Delaware	New York City	Suffolk
Essex	Niagara	Sullivan
Franklin	Oneida	Ulster
Fulton	Otsego	Warren
Greene	Rensselaer	Washington
Hamilton	Rockland	

Reassessment of property by court order as provided in section 173-a of the Tax Law has been found by the Commission to be impracticable. The proceedings therein outlined are so difficult, complicated and expensive and the results obtained so unsatisfactory that the Commission has found it unwise to attempt to pursue the remedy contemplated by said section.

Furthermore, it has had no funds available for any such purpose. For this reason and for the further reason that it has found

that perfect co-operation between the Commission and local assessors has brought about satisfactory results, the Commission has continued its policy of urging compliance with the law upon local assessors as a duty and as essentially honest, and the efforts of the Commission have been met with cordial response.

The distribution of the locality's share of the personal income tax on the basis of the assessed value of real estate, which was urged by this Commission before the Legislature when that act was passed, has had a tremendous influence in the making of better assessments throughout the State, and we believe that within the next year or two, when localities fully realize the advantage of full value assessments, the old familiar and time worn complaint of undervaluations will practically disappear.

The following statement shows the assessments and exemptions for 1919:

Total assessed value of property within the State for the year 1919:

Real property (inclusive of equalized special franchise property)	$12,625,190,013
Equalized special franchise property, $579,194,-720.	
Personal property (other than bank stock).....	364,243,720
Making a total real and personal property assessment of	$12,989,433,733

The net increase in the assessed value of real property (inclusive of equalized special franchise property) over the year 1918 is.....	$303,039,689
Decrease in equalized special franchise property compared with the year 1918, $27,166, 983.	
The decrease in the assessed value of personal property (other than bank stock) compared with the year 1918 is.....	71,627,910
Making a net increase over the year 1918 of	$231,411,779

REAL PROPERTY EXEMPT FROM TAXATION

The total valuation of real property exempt from taxation as reported to this Department as provided by section 15 of the Tax Law is as follows:

For the year 1919	$2,883,831,558
For the year 1918	2,809,793,022
An increase over the year 1918 of	$74,038,536

There is given herewith a list of tax districts of the State wherein substantial increases in the assessed valuation of real property by the assessors in the year 1919 have been made.

COUNTY	Tax district	Increase	Per cent of increase
Allegany	Alma	$784,700	122
Allegany	Wellsville	3,487,703	101
Broome	Union	3,250,882	29
Clinton	Champlain	452,931	50
Clinton	Mooers	283,490	72
Clinton	Peru	223,610	36
Clinton	Plattsburg town	364,360	43
Clinton	Schuyler Falls	282,754	70
Clinton	Chazy	288,200	43
Clinton	Plattsburg city	735,403	20
Delaware	Andes	141,784	19
Delaware	Franklin	26,445	2
Delaware	Walton	2,967,400	158
Erie	Lackawanna city	3,255,919	22
Orange	Middletown city	11,719,996	140
Orange	Port Jervis city	1,800,120	48
St. Lawrence	Massena	1,199,018	22

The towns of Alma and Wellsville in Allegany county have shown most notable increases and deserve special commendation The county of Clinton has long been backward in its assessment of real property. We are pleased, however, to report this year very substantial increases in the towns of Champlain, Mooers, Peru, Plattsburg, Schuyler Falls, Chazy, and Plattsburg city, the amount of these increases appearing in the above table.

The town of Walton in Delaware county, since the determination of the several equalization appeals in that county, has made the largest increase in its assessment of any tax district in the State.

In Orange county, Middletown and Port Jervis have both made decided improvement, particularly the former, where Mayor Roslyn M. Cox and Assessor A. B. Macardell in the face of a storm of public protest and criticism increased the assessment of real property from $8,405,626 to $20,125,622, exclusive of special franchise assessments, or 140 per cent, putting it substantially upon a 100 per cent basis. The act of the assessor, which was supported by Mayor Cox, was made the sole issue in the campaign that followed and resulted in the splendid endorsement of these two men by about 1,000 majority.

It has always been thought that political death for the assessor or other tax official would follow strict compliance with the law relating to the assessment of property. The contrary has been proven in many localities, showing clearly that the majority of taxpayers of any community favor obedience to law where everybody has the same treatment.

In the report of this Commission for the year 1917, the work of Martin Sheehan of the city of Niagara Falls was especially commended. The Commission with sorrow records the untimely death of this able, fearless and conscientious public officer. Mr. Sheehan was a pioneer of the new era of legal and scientific assessments of real estate, and in one year increased the assessment in his home city from about $35,000,000 to approximately $83,000,000, which produced the lowest tax rate of any city in the United States. The per capita assessment in Niagara Falls is nearly as high as that of the Borough of Manhattan. Mr. Sheehan's work was accomplished not without strenuous opposition, but, as in the case of Middletown, he won out over those who were seeking by indirect means to evade the law. His services were sought in numerous cities and his work and public addresses made him well known and respected throughout the State.

Constructive Work of the Commission

Among the general duties required of the Commission are "to inquire into the provisions of the laws of other states and jurisdictions; to confer with tax commissioners of other states regarding the most effectual and equitable methods of assessment and taxation, and particularly regarding the best methods of reaching all property and avoiding conflicts and duplication of taxation of the same property, and to recommend to the legislature such measures as will bring about uniformity of methods of assessment and harmony and cooperation between the different states and jurisdictions in matters of taxation."

Section 171, paragraph 12.

Believing that it is in the line of the duty of the Commissioners to become well informed in tax matters, not only in this State, but in other states and to qualify themselves as experts, members of the Commission attended the National Tax Association conference in Chicago and took part in its deliberations; also the Conference of New England Tax Officials in Boston, which one of the Commissioners addressed and explained the working of the New York State Corporation Income Tax Law.

The Commission has also started in a systematic manner a library consisting of the most recent Tax Laws, statutes and regulations of every state in the Union, and of as many of the best governed countries as it is possible to obtain. The latest reports from the Tax Commissions and taxing authorities of the states have also been accumulated under appropriate headings and these with other books and pamphlets containing discussions of the subject of taxation, which is growing more and more important each year, are being accumulated in the Department offices and will be available for members of the Legislature and others seeking information along these lines. It is the desire of the Commission to be of assistance to the Legislature in framing wise laws and in making the State of New York the leading State in equitable methods of obtaining revenue for State and local needs.

Equalization Appeals and Reviews

No subject affecting local assessments is of greater importance than the right of the supervisor or mayor, as the case may be, to appeal to the State Tax Commission from the equalization made by boards of supervisors or commissioners of equalization. This right has existed for upwards of sixty years. The practice has long prevailed of a combination of interests, political, geographical, or financial, uniting by the process known as equalization to escape their just share of the tax burden by casting it upon the tax districts of the county less able to defend themselves. The supervisor who is able to get a higher rate of equalization which in no respect represents the actual condition in his district, is called a "good fellow" a "successful supervisor" and worthy of the commendation of his constituents. The fact that such a condition has existed and to a large extent has been acquiesced in has resulted in unseemly controversies, in general undervaluations of property, and has made the assessment of property for tax purposes in many localities, when viewed in the light of the oath attached to the assessment roll, more of a joke than a serious business. If unfair equalization is to follow no amount of instruction or urgings or appeals to conscience and good citizenship will be of any avail. The commission having this serious situation in view early decided to use all of its powers to put a stop to the nefarious business and bring about just and equitable equalization in every county. A bulletin upon the subject of "Equalization" was issued. Complete forms and rules of procedure were adopted by the commission and every supervisor and mayor having the right of appeal was invited, in case of gross discrimination, to bring the matter properly before the State Tax Commission either by an appeal or a review to be conducted by the Commission. The result has been that the counties wherein there is unjust equalization are exceedingly few. The drastic lessons which have followed the sustaining of some appeals requiring tax districts to restore their ill-gotten gains have resulted in an effort in practically every county to make equalization tables which will equitably distribute the tax burden.

In this connection we submit that section 51 of the Tax Law should be so amended as to allow commissioners of equalization at least $10 per day and expenses, not to exceed $500 in any one year. Such reasonable compensation will procure the services of men capable of performing this difficult work.

For the first time in the history of these appeals the constitutionality of the law which makes the State Tax Commission the body having jurisdiction to hear and determine such appeals and reviews and to substitute its table for that made by the board of supervisors or commissioners of equalization, has been attacked. In a case in Westchester county the question was raised in the proceedings upon appeal and also in an application for a writ of prohibition, to restrain the Commission from hearing such appeal. The constitutionality has been upheld in the former case unanimously by the Appellate Division, Third Department, and by the Court of Appeals in a decision just handed down. In the latter case it was upheld by the Special Term and unanimously by the Appellate Division, Second Department. An adverse decision would have rendered ineffectual the good work of the Commission during the past few years and have left the matter of local assessments in a state of chaos without any centralized control. Appeals might have been taken to courts and taxpayers would have shrunk from this procedure. The details of the work of the Commission in equalization cases and in reviews of equalization appear in the report of the Law Division.

State Board of Equalization.

The State Board of Equalization, consisting of the Commissioners of the Land Office and the State Tax Commission, is required annually to make an equalization table which furnishes the basis for the distribution of the State tax among the several counties of the State. The Board meets on the first Tuesday of September. This table is made from data furnished by the State Tax Commission. The Commission is required from time to time to equalize the special franchise assessments in the villages and tax districts of the State, and has gathered a very consider-

able amount of data relating to the manner of assessment in every part of the State. From the special franchise equalization rates the Commission found the average rate for each county and submitted to the State Board of Equalization a State equalization table based upon these rates. This was adopted by the State Board without change of a single figure and for the first time, so far as we have been able to ascertain, the State equalization table is absolutely uniform and harmonious with the equalization of special franchises throughout the State. While further investigation, additional data, and improved assessments will undoubtedly make some changes necessary we believe that this table which will be found annexed to the report of the meeting of the State Board of Equalization, more nearly represents the actual condition in the State than any table previously adopted.

Organization of the State Tax Department

The organization of the Department continues as heretofore and outside of the general work of the Commission the detail work is cared for by the several bureaus as follows:

(a) The General Administration Bureau.

(b) The Bureau of Local Assessments, Equalization and Statistics.

(c) The Special Franchise Tax Bureau.

(d) The Mortgage Tax Bureau.

(e) The Corporation Tax Bureau.

(f) The Law Division.

The details of administration will be found under the headings of the various bureaus and divisions.

A. *The General Administration Bureau*

Notwithstanding the fact that the work of the Commission has been largely increased by extending the Corporation Income Tax Law to include all business corporations, by adding to the work of the local assessments bureau the work of the appraisal of properties for equalization purposes, by the increasing participation of the Commission in legislative matters, by demands for local

assistance in the explanation of Tax Laws and more frequent appeals from equalization and requests for reviews, the working staff of the Commission has not materially increased during the past year.

The merit system is applied and the spirit of loyalty and cooperation among the employees is everywhere manifest. The serious handicap is the scattered condition of the offices and in many cases the lack of proper heating and ventilation which has been frequently referred to in the reports of this Commission and has not as yet been alleviated. The installation of the addressograph was a great improvement and saves an enormous amount of clerical work besides enabling the Commission more promptly to get out its blanks to corporations and to distribute its bulletins to assessing officers as soon as received from the publishers.

Salary Increases Needed

The work of the Commission will be seriously handicapped in the near future unless the Legislature gives some heed to the demand for better compensation for the employees of this Department. Within the past week two of the most important positions in the Special Franchise Bureau have become vacant by resignation and the Commission feels that it is difficult, if not impossible, to fill them. These men have not gone into other branches of the State service but have accepted positions paying from fifty to one hundred per cent more salary than they were receiving in the State employ.

Attention is also called to the fact that there appear to be more attractive salaries in some of the other departments and a goodly number of our employees during the past year sought transfers or took civil service examinations which entitled them to positions in other departments at better pay. There should be uniform compensation for similar positions and services. While the cost of living has doubled and in some cases trebled within the last two years, there have been but very slight increases in the salaries in this Department during the same period. In this connection it might not be out of place to call attention to the fact that one bureau of the Department assessed and levied approximately

$45,000,000 during the fiscal year, which will be nearly $14,000,000 more than in the preceding year. The minimum tax amendment on business corporations reporting no net earnings, which was prepared by the Commission and enacted by the last Legislature, will alone produce sufficient receipts to pay nearly three times the entire cost of the administration of the Department.

B. *Bureau of Local Assessments, Equalization and Statistics*

During the year 1919 detailed investigations of the assessment of property for purposes of taxation by local assessing officials have been made and completed in each county in the State other than the counties of Hamilton and the five counties comprising the city of New York. Final completion of the investigation of assesments of property in Hamilton county before the end of the year was impossible because of local road and weather conditions. As soon as these conditions permit, this investigation will be resumed and finally completed. Because of the magnitude of the work of investigating the assessment of property in the city of New York, the time has not yet been reached when it can be truthfully said that that work has been finally completed. Our investigators are working with all possible speed, and their work is always kept advanced to a point sufficient to enable the Commission to perform the work required of it by law in this State.

The scope of these examinations has been extended beyond the mere procurement of required facts, such as sales and mortgage data. Knowledge which our investigators have procured through their experience has enabled them to supplement their work of procuring data by value and appraising values of property in the several tax districts in which investigations are being made. This has supplied the Commission in the first instance with new and valuable information of the local assessment of all classes of property. All of this information is made available to local assessors, boards of supervisors and equalization commissions.

That the data secured by our investigators and results of our investigations are reliable is demonstrated by the fact that there is a constantly increasing demand from local officials for the

material gathered, and in some counties appeals and reviews of county equalizations are pending before the commission in which all parties have agreed to accept without question the facts disclosed by our investigators, and to have their cases decided upon those facts.

The Legislature of 1919 made possible regular employment since July of that year of two engineers who have been and are assisting local assessors in determining values of so-called extraordinary properties, such as properties of public service and large manufacturing corporations, correct values of which cannot be determined by the local assessors themselves. It is physically impossible for these two men to cover more than a very small part of the State, and they have been assigned to those sections where their help was most needed. Their work for approximately five months of the year has resulted in adding to the tax rolls of the districts in which they have worked approximately $1,000,000, of which amount about one-half was added to the tax roll of one town.

The Bureau is almost daily in receipt of urgent requests for the assistance of these engineers, and we have to-day more of those requests than it will be possible to grant for a long time in the future unless our present staff be materially increased. This should be done.

It is with a great deal of pride that attention is called to the results obtained from the work of this Bureau since its creation in 1915, with local assessors and with equalization boards and commissions. While it is within the statutory power of this Commission to summarily order local officials either to do or not to do certain things, it has been the policy of the Commission to co-operate with local officials, to instruct them in the proper methods of performing their duties in their respective offices, and to aid them in the performance of those duties. In other words, it may be said that we have conducted a campaign of education among the local officials and taxpayers, endeavoring to show them beyond reasonable doubt what the law requires, how that law may be properly enforced, and the benefits accruing from compliance with that law.

The response with which our work has been met is not only most satisfactory in general, but in some instances it is indeed

astonishing. There is without doubt a new and determined effort among local assessors to comply with the provisions of the Tax Law with regard to the assessment of property and among equalization boards and commissions, to make proper equalizations of those assessments and among taxpayers to support their public officials in a proper performance of their duties. As a result of our work and the co-operation received from localities, many millions of dollars of taxable property throughout the State which has never been upon the tax rolls so far as we can find, and which, therefore, has escaped the payment of any tax whatever, is now upon the rolls and paying its share of the expense of State and local government.

In 1915 the total assessed valuation of taxable real property in the State was approximately $11,300,000,000; to-day it is nearly $12,800,000,000, or about $1,500,000,000 more than in 1915. The constantly increasing interest evidenced by local officials and taxpayers, and the declared intention by local officials to materially improve their work with our help, and our support, would seem to justify the prediction that future results will surpass those of the past.

An appendix is attached to this report showing the rates of equalization of special franchises in all of the cities, towns and villages of the State.

C. *The Special Franchise Tax Bureau*

The work of this Bureau is covered by three divisions:

(a) Water, gas and electric companies.
(b) Telegraph and telephone companies.
(c) Steam railroads.

The special franchise valuations, which comprise the value of tangible property in the streets, public places and public waters, together with the right or privilege of occupying the same and operating therein, in the first two divisions, are computed for the most part according to what is known as the "net earnings rule," that is to say, from the gross operating revenue there is deducted operating expenses, maintenance, repairs, taxes, annual depreciation and a fair return upon the present value of the tangible property of the corporation. The sum remaining, if any, is capitalized usually at 1 per cent more than the amount allowed for the

return and this capitalized amount is added to the value of the tangible property in the streets.

Because of unusual and what have appeared to be abnormal conditions during the past three years, increased cost of labor and material, and because of the fact that most of these public utilities are operating at a rate fixed before these changes in operating costs occurred, the computation of these values in many instances has become exceedingly difficult and complex, and the Commission, believing that the value of the special franchise privilege ought not to be subject to violent fluctuations, either up or down, has deemed it fair as between the corporations and the public, to base its computations upon a condition shown by an average period of five years where this would produce fair valuations. This has been done without committing the Commission to a hard and fast rule, but has been applied in the exercise of its best judgment to do as far as possible equal and exact justice in all cases.

In the steam railroad division assessments are based upon estimates of value for crossings dependent upon the amount of the physical property involved, and the importance of the particular occupancy. Inasmuch as the special franchises of steam railroads have not been dependent upon their net earnings as in the case of other public utilities as a rule, changes in operating expenses and revenue have not so seriously affected these values. It is probable, however, if the present high cost of operation of public utilities continues without a corresponding increase of revenues, the assessments which are certified to localities will materially decrease in the near future.

The Commission believes that a far better assessment of all public service corporations occupying more than one tax district could be had by centralizing in the State Tax Commission the assessment of all such property and assigning to the localities the values for each tax district. This would require an amendment to the Constitution, inasmuch as it would interfere with the so-called home rule provision.

It is hoped and urged by the Commission that the Legislature will take serious thought of this suggestion and of the desirability and necessity for such amendment. There can be no doubt that a more uniform assessment of this class of property can be made

by a centralized body of experts than can be made by local assessors.

Furthermore, the amount of litigation brought by these corporations against local assessors is enormous and localities are loath to enter into it to protect their rights. In States where there has been much progress made in methods of taxation this practice is quite uniformly followed.

The Special Franchise Bureau is peculiarly qualified to say what is the real value of all of the property of these corporations, including both the street occupations and other real estate, both in and out of the streets, as it must of necessity determine these values in assessing the occupations of streets and public places and in ascertaining the value of such privileges.

Briefly stated, the advantages of this method of assessment would

(a) insure substantially correct valuations;
(b) secure uniformity of assessment;
(c) simplify the functions of local assessors;
(d) result in saving expense to the localities;
(e) result in economy for the corporations taxed;
(f) reduce and simplify litigation;
(g) largely increase tax revenues.

The fact that the tax amendment recently submitted to vote was rejected we believe was due to a misapprehension and to lack of proper explanation and that if the matter were clearly and fairly submitted to the people it would be adopted. The power should be given to the Tax Commission to assess the intangible as well as the tangible property of the utility companies, as it would be inadvisable to relinquish the power and right to assess the species of taxable value which has been so long recognized and so many times sustained by the highest courts. In other words, the State in its effort to secure larger powers for centralized assessment should not relinquish its existing powers.

Litigation. It is gratifying to observe that due to the more recent activity of the legal machinery of the State and municipalities, some of the long pending litigation has been terminated with prospects of an early adjudication of the duplicate or other cases

involving the same point of contention, which have been added from year to year dependent upon the determination of the test cases. The accumulation of cases has to a large extent been due to the fact that the Attorney-General's office has had insufficient help to dispose of them all promptly without co-operation of the municipalities for which the assessments are made. There has seemed to be a disposition on the part of the legal departments of many municipalities to delay these cases, or not to force them to trial, and the companies bringing the proceedings have nothing to lose by adverse decisions and much to gain from favorable results, and so acquiesce in these delays hoping for compromise by way of reduction of assessments. Nearly all cases arising since 1915, the year in which the Special Franchise Bureau was created, and including 1918 and a part of 1919, have either been sustained by the courts or discontinued by the companies. Since 1915 valuations made by the Commission have been in conformity with the decisions and precedents of the highest courts and in harmony with the well established rules of valuation employed by valuation and regulation commissions and sanctioned by the leading experts of the country.

During the year 1919 there were 311 certiorari proceedings commenced against the 1919 valuation, a decrease of forty-five cases as compared with 1918. One hundred and fifty-seven of these cases were brought by six steam railroads and 151 by water, gas and electric companies, principally the latter. The remaining three cases were brought by the telephone and telegraph companies.

The total number of companies assessed in the State is	1,700
and the total number of assessments made.....	6,700

From the foregoing it will be seen that only about 3 per cent. of the corporations took out certiorari against 4.6 per cent. of the assessments made.

As the law now stands, if a corporation succeeds in its contention that property involved in the litigation is not the subject of special franchise, the local authorities may put this property on their tax roll as "omitted property" for the year preceding the

year of assessment, and for only one year. This works a great hardship to localities where they are compelled to repay the company the taxes which the company may have paid upon the franchise assessments, together with interest for several years, and yet are denied the right to assess the property locally. The company is thus enabled to escape taxation on its tangible real estate for all the years, except for one year prior to the determination of the proceedings. There is no equity or justice in such a situation. If the company is not assessable for special franchise, it should be subject to local assessment and pay taxes the same as the owners of other real estate. The statute should be so amended as to permit the local assessors to place this property upon the tax roll for at least five years, if the proceeding has been pending that long.

Special Franchise Tax Proceedings in New York City

More than two-thirds of all the special franchise assessments in the State are located in New York City, totaling about $436,000,000 annually. Many of these assessments have been in the courts for years. It has been impossible for the corporation counsel's office in the city to dispose of them, and in 1917, the Attorney-General designated Hon. Martin Saxe as a deputy to take charge of this litigation in New York and co-operate with the city authorities in the speedy trial and disposition of the same. Most gratifying results have been obtained by this arrangement and many notable cases establishing precedents have been disposed of.

The proceeding brought by the New York Telephone Company to test its 1913 assessment of $70,000,000 has been tried and is awaiting decision.

The Park Avenue assessments against the New York Central Railroad for the years 1909, 1910 and 1911 were tried before Hon. D. Cady Herrick, Referee, and sustained without reduction.

During the year 1919 proceedings have been discontinued upon stipulation without reduction involving over $120,000,000 in assessments and $2,000,000 in taxes.

An important decision against the Mexican Telegraph Company involving the assessability as a special franchise of the right

to operate cables in the Atlantic Ocean within the three-mile limit has been sustained by the Appelate Division and leave to appeal to the Court of Appeals has been denied.

Mr. Justice Erlanger recently overruled the referee's report reducing the New York Central assessment and sustained the Commission's contention that it was incumbent upon relators to file written complaints on grievance day which contain the *prima facie* case and that they must sufficiently raise the issues in their petitions for writs of certiorari as a condition precedent to the making of an assessment *de novo* by the court. If this decision is affirmed by the higher courts, it will establish one of the most important principles in certiorari litigation.

Since the designation of Mr. Saxe as counsel for the State Tax Commission, pursuant to section 47 of the Tax Law, 82 special franchise proceedings have been finally disposed of in New York city. The assessments involved in this litigation amounted to upwards of $340,000,000, upon which the taxes assessed were more than $6,000,000.

The following is a summary of the above:

The Bureau has been of great assistance to local assessors throughout the State.

The reports of public service corporations embody statements of the value of their properties in the street and it is permitted to give this information to local assessors for the purpose of comparison with the local assessment of the same property.

Statistical Tables. The following tables show the assessments made by the Commission for the year covered by this report.

Table "A" shows the assessments in the cities of the State separated into tangible and intangible. From this will be seen the amount of increase due to the operation of the special franchise law over and above what local assessors might be presumed to have valued the tangible property.

Table "B" shows the same thing for the towns and villages of the State.

D. *The Mortgage Tax Bureau*

Article 11 of the Tax Law, commonly known as the Mortgage Recording Tax Act, makes it the duty of the Tax Commission to advise recording officers and to exercise a general supervisory power over them in the administration of the Mortgage Recording Tax Law.

The Mortgage Tax Bureau is the agency through which the Commission disseminates advice and exercises the supervisory power over the recording officers who are charged with the duties of recording mortgages and collecting taxes thereon. The Commission is charged under this law with the duty of making such rules and regulations for the guidance of recording officers as may be necessary for the proper collection of all mortgage taxes and the accrued penalties thereon and to correctly account for the same. A review of the work of this Bureau for the year ended December 31, 1919, shows:

Apportionments. Under section 260 of the Tax Law it is made the duty of the Commission to determine the amount of principal indebtedness that shall be taxed, which is secured by mortgages covering real property situated partly within and partly without the State. These mortgages are taxed upon the proportion of the indebtedness secured as the value of the mortgaged property within the State bears to the entire value of the mortgaged property situated both within and without the State.

The Commission is also required to apportion among tax districts the tax collected on mortgages covering property in more than one tax district situated wholly within the State, which tax is apportioned on the basis of the relative assessments within the respective tax districts in which the mortgaged property is located.

During the year ended December 31, 1918, the Commission disposed of 1,594 cases of determination and apportionment, releasing for distribution among the tax districts the sum of $313,866.69. Ffteen hundred and four cases of determination and apportionment were also disposed of, releasing for distribution among the tax districts the sum of $145,991.73. All of these cases are promptly taken up for consideration as soon as they are presented by the respective recording officers.

County Examinations. The Commission has assigned seven mortgage tax examiners and one confidential mortgage tax examiner to the jurisdiction of this Bureau and these examiners are engaged in examining the mortgage tax records of the several recording officers of the State for the purpose of ascertaining if all taxes and penalties have been accounted for; if the proper tax has been collected on all the instruments subject to taxation; if the computations of taxes have been correctly made and, in general, to ascertain if the provisions of the Mortgage Tax Law have been complied with and to make a written report of the result of these examinations. These reports show the necessity of a close relationship between the Commission and the county recording officers in view of the changes made by each annual election and it, of course, follows that a new recording officer is not well informed on the provisions of the Recording Tax Law which he is called upon to administer, and it is the policy of this Commission to invite such newly elected recording officers, as well as others, to solicit advice from the Commission on questionable instruments presented for record. This policy has reduced to a minimum the number of errors and greatly lessens the number of instruments that might otherwise escape payment of the required tax.

During the year ended December 31, 1919, examinations have been made and reports filed in the following counties: Albany,

Chemung, Cortland, Greene, Kings, Monroe, Oneida, Orleans, Rockland, Schuyler, Seneca, Steuben, Suffolk, Tioga and Ulster. The following counties are now in process of examination: Columbia, Onondaga, Queens, Rensselaer, Schenectady and Westchester.

Expenses of Recording Officers. The provisions of section 262 of the Tax Law authorize recording officers to deduct their necessary expenses from mortgage tax moneys after such expenses have first been approved by the Commission. The expense for hire of clerks, assistants, printing, binding, stationery, bonds, etc., for the year ended June 30, 1918, is the sum of $69,550.21. The expense for similar purposes for the year ended June 30, 1919, is the sum of $69,421.82, showing a decrease of $128.39 over the preceding year.

Mortgage Tax Operations. The recording officer of every county in the State is required on the first day of each month to file with the Commission a report of the number of mortgage statements filed, the number of mortgages recorded, and the amount of mortgage taxes collected during the month preceding. These reports show that for the year ended June 30, 1918 (which is the end of the mortgage tax year) a total tax of $1,753,081.48 was collected. For the year ended June 30, 1919, a total tax of $2,587,859.08 was collected, showing an increase of $830,-777.60 over the preceding year. During the year ended June 30, 1918, there were 81,455 mortgages recorded and during the year ended June 30, 1919, there were 100,848 mortgages recorded, showing an increase of 19,393 mortgages recorded.

Administration. During the year ended December 31, 1919, the recording officers presented to the Commission for review 407 cases in respect to exemption of supplemental and indeterminate mortgages under sections 255 and 256 of the Tax Law.

Annual Statements of Trust and Prior Advance Mortgages. In the case of a trust mortgage and a mortgage executed prior to July 1, 1906, where the maximum amount of principal indebtedness has not been advanced, there is required to be filed with the Commission in July of each year and in the office of the recording officer where such a mortgage is first recorded a statement in which shall appear the amount advanced on such mortgage during the preceding year. The purpose of requiring the filing of such

a statement is to enable the recording officer and this Commission to determine the proper tax collectible. Examination of these statements often discloses the fact that advancements have been made without payment of the tax to the proper recording officer. On discovery, steps are at once taken by the Commission to compel compliance with the requirements of the law. During the year ended December 31, 1919, $8,653.66 in delinquent taxes and penalties were collected.

The examination of the records made by the special agents of this Bureau has disclosed many instances where instruments not apparently mortgages upon their face, but intended as security for some indebtedness or obligation and of such a character as to be regarded as mortgages, but for indefinite amounts. Due to the inexperience of recording officers, these instruments have been placed on record and the owner advised that there is no tax payable. Subsequently, it may be several years later, an examination of the record discloses that a recording tax should have been paid and that the person presenting the paper for record should have filed the statement provided for in section 256 of the Tax Law, showing the amount secured by such instrument. As the law now reads, a tax is collectible upon the full value of the property which is the subject of the lien without regard to the amount secured, and it has been held that the affidavit or statement of such amount cannot be filed except at the time the paper is recorded, and that the party liable for the tax must pay the same with a penalty at the rate of 1 per cent. per month from the 23d day of May, 1913, as provided by section 258 of the Tax Law.

The Commission has been criticised because of its enforcement of this provision of the law, which it has been powerless to deviate from. It is, therefore, recommended that sections 256 and 258 be so amended as to permit the filing of a statement as to the amount secured by the instrument determined to be a mortgage *nunc pro tunc* if the Commission is satisfied that the failure to file such statement and pay the tax at the time of recording the same was due to an honest misconception on the part of the recording officer and of the owner of the instrument, and that the amount of the tax be collected with 6 per cent. interest from the date of record. It is also recommended that section 258 be so amended

that under circumstances similar to those above recited as to an indeterminate mortgage, the tax upon a determinate mortgage which may have been innocently recorded without payment of a tax upon the assumption that the same was not taxable may be paid with simple interest.

In conclusion it may be stated that the administration of the Mortgage Tax Law is regarded as highly satisfactory and this statement is supported by the fact that there have been few, if any, complaints made by those subject to its provisions.

E. *The Corporation Tax Bureau*

One of the most important and responsible duties devolving upon the Tax Commission is the assessment of franchise taxes upon between 60,000 and 70,000 corporations, classified as follows:

Net earnings taxes upon business corporations,

Gross earnings taxes upon railroads and other transportation companies,

Gross earnings taxes upon light, heat, power and water corporations,

Gross earnings taxes upon telephone, telegraph and transmission corporations,

Gross premiums taxes from insurance companies,

Gross compensation taxes upon foreign banking corporations,

Capital stock taxes upon transportation, transmission, and miscellaneous corporations.

Assessments made, under the net income franchise tax law	46,551
Under the other laws	16,789
Making a total of	63,340

The recommendations with relation to the amendment of Article 9-a made by this Commission to the Legislature at its last annual session were enacted into law and have resulted well. Much of the ambiguity of the statute has been eliminated. The change of rate from 3 per cent. to 4½ per cent has raised the total of assessments to relatively 50 per cent. above those of the preceding year. The indicated revenue from Article 9-a of the tax law for the fiscal year is in excess of $32,000,000.

It is worthy of note that the taxes assessed under the minimum provision of section 214 of the Tax Law this year will approximate $1,000,000, which is more than three times the entire cost of maintaining the entire work of this Commission.

The revenues from franchise taxes for this fiscal year under article 9 of the Tax Law will exceed $13,000,000.

From the moneys collected under article 9-a about $11,000,000 will be returned to the local taxing districts of this State, thereby largely relieving real property from its burden, and approximating 85 per cent of the amount of the direct State tax paid by the taxing districts.

Experience during the last year has demonstrated the necessity of a considerable number of changes in articles 9 and 9-a of the Tax Law, most of which have to do with administration, and this Commission respectfully submits the following changes:

It is recommended:

That section 209 be so amended as to clear away doubt in relation to the fiscal year for which the report is to be made and as to the basis of computation for foreignly organized corporations.

Subdivision 2 of section 211 of the Tax Law is not altogether a satisfactory method of determining the elements to be considered and their segregation as regards the portion to be regarded as in this State.

It is recommended:

That bills and accounts receivable for business actually transacted in this State, although the goods which were sold were temporarily out of the State at the time of sale, or the services which were performed had their point of origin in the State, should be treated as assets within the State for the purpose of this act.

If the above recommendation is adopted

It is recommended:

That section 214 be so amended as to carry into effect the changes made in section 211.

It is further recommended:

That a new provision for consolidated reports be provided by adding to section 211 a new subdivision, to be number 9, and that a new subdivision, to be number 7, be added to section 214 which provides for the computation of taxes.

The minimum tax provision of section 214 does not sufficiently provide for the taxation of corporations having stock without par value.

It is recommended:

That such stock be taken as of the value of stocks with par value, namely, at one hundred dollars per share for the purpose of computing the minimum tax.

Under the provisions of section 218 the Tax Commission has no discretion to modify the penalty imposed for failure to make a report as provided in the article.

It is recommended:

That provision be made in such section to modify penalties as they may now modify taxes, for just cause.

And it is further recommended:

That the Comptroller should have similar powers under section 219-c with regard to the penal interest charge when satisfactory proofs are submitted to him.

Section 219-j has been the cause of very serious difficulty in regard to the taxation of foreign corporations in some of the taxing districts in this State. While it is true that in other years, and before the corporate income tax law was passed in 1917, the courts have held that section 7 of the Tax Law applied to non-resident corporations, yet it is the opinion of the Tax Commission that it cannot be so construed since the passage of chapter 726 of the Laws of 1917. But there should be an assurance in the act that these corporations which are already paying taxes, a share of which, in excess of any amount paid to the localities before the law of 1917 came into being, is now returned to them, be not subjected to double taxation.

It is therefore recommended:

That section 219-j be so amended that the personal property of foreign corporations cannot be subjected to double taxation, either by intent or otherwise. It is better that the assurance be double than that the remotest doubt exist.

There are certain anomalous conditions existing in article 9 of the Tax Law. Many taxes, due to the peculiar provisions of section 182 of the law, are based upon net values, without any regard to the value of the franchise and the cost of supervision by the State. This results in taxes of a very few cents being imposed although the corporation may be holding hundreds of thousands of dollars worth of properties.

It is therefore recommended:

That section 182 of the Tax Law be so amended that every corporation exercising its charter or doing business in this State be subject to a minimum tax of ten dollars at least, and not less than three-fourths of one mill on the difference between its assets and liabilities, whether it pays a dividend or dividends in excess of six per cent or not.

It is also recommended:

That section 181 of the Tax Law be amended so that the capital stock of any corporation having no par value and subject to its provisions shall be deemed to have a face value of one hundred dollars for each share for the purposes of such section.

Cases.

The Commission would respectfully call the attention of your honorable body to some of the most important litigations arising under articles 9 and 9-a of the Tax Law, and which have been decided since our last report:

The People ex rel Barcalo Manufacturing Company vs. Tax Commission. This case was carried to the Court of Appeals and involved the State's title to about $6,500,000. The determination of the Tax Commission was affirmed.

The People ex rel Receiver of the Second Ave. R. R. Company vs. State Tax Commission. This case involves about $70,000. The decision of the Tax Commission was affirmed.

The People ex rel. Harway Improvement Company vs. Tax Commission. The determination of the Tax Commission was affirmed.

The People ex rel. Iroquois Door Co. vs. Tax Commission. Determination of Tax Commission affirmed. While the amount

involved in this one case was not large, the loss to the State and the local taxing districts would have been very considerable if the corporation had been able to establish the correctness of its contention.

F. *The Law Division*

Legislation. Many important amendments to the tax law were made this year. More revenue was needed both for the State and localities, and the task of framing proper legislation for this purpose was put in the hands of the joint Legislative Committee on Taxation. During the entire legislative session, the Commission, assisted by counsel, exerted every effort to co-operate with this Committee in collating data, submitting briefs and advising to the best of its ability. Important changes in the law were made at the suggestion of the Commission to improve the administration of the already existing scheme of taxation, and to permit the Tax Department to reach out a little further to assist the local assessor in fairly and intelligently valuing property. The amendments to the Tax Law made in 1919 are briefly as follows:

Section	*Chapter*	*Substance*
30	442	Permits villages to prepare and adopt tax maps.
45-c	190	Requires special franchise valuations last certified by the Commission to be inserted in assessment rolls.
56	191	Permits boards of supervisors to correct an error made by the assessors in copying an assessment from their field book on the original roll.
59 sub. 3	189	Requires the collectors of the towns in Suffolk County to pay over the school taxes to the county treasurer on or before the 15th day of January and at the end of every 15 day period thereafter. The county treasurer is required to pay such sums forthwith to the treasurers of the school districts.
91	249	The county treasurer is permitted to borrow sufficient money upon the credit of the county to pay the State tax of any city as well as town and charge the same against such city or town.
91	55	Amendment in effect the same as provided by Chapter 249 above.
106-a	445	Gives a town or city upon which taxes have been levied to satisfy certain unpaid school taxes a claim for such taxes against the school district which has had the benefit of such taxes. A levy may be compelled by mandamus.

Section	*Chapter*	*Substance*
152 (152-a, 152-b) new.	443	Redemption from the sale of real property in Suffolk County may be made within three years after the last day of sale. Notice of redemption is to be published by the county treasurer at least three months before the expiration of the three year period. Provisions of the Tax Law relative to the redemption of property, shall, with respect to Suffolk County, be construed as referring to such three year period of redemption.
177-a	200	Permits debtor taxing district, where the Commission in its equalization appeal order requires money to be paid by one taxing district to another, to pay such money in the same manner as in the case of a judgment against the taxing district.
186	548	Requires the tax of three per centum upon the amount of dividends declared or paid in excess of four per centum by public utility corporations to be computed upon the basis of the actual amount of paid up capital employed in this State; also states method by which the amount of capital employed in this state may be ascertained.
187	625	Imposes the tax of one per centum on the excess gross premiums charged by insurance corporations over certain deductions enumerated.
208	628	Entire net income defined.
209	628	All business corporations except those specified in Sec. 210 subjected to franchise tax on net income.
211-1	628	Foreign business corporations must report such facts to the Commission as are required from domestic corporations.
211-2	628	Business corporations must report deductions for losses sustained allowed by federal government.
211-5	628	This subdivision inadvertently omitted by Chapter 411, Laws 1918, has been replaced.
211-8	628	Business corporations having no net income must complete the segregation of assets in their reports.
212	628	Business corporations may not make report upon same basis as that to federal government in case of consolidation.
214	628	Tax based on entire net income as defined in 208 and not as returned to Treasury Department.
214-a	628	Business corporations acquiring assets or franchises of other corporations are required to include in their annual return so much of the entire net income of such corporations as shall not have been included in measuring a franchise tax to the State. The corporation is taxed on the combined entire net income. Section amended in 1919 and as so amended made retroactive.

Section	*Chapter*	*Substance*
215	628	The rate of tax upon business corporations is increased from three per centum to four and a half per centum of the entire net income of the corporation.
219-a	628	Tax Commission to audit and state accounts of corporations December 1st instead of November 1st of each year.
219-b	628	Business corporations required to report their entire net income.
219-c	628	Exception from penalty provisions upon payment within 30 days after passage of act eliminated.
219-d	628	Subdivision amended to substitute entire net income for net income.
219-h	628	Share of franchise tax paid localities based upon tangible personal property.
219-j	138	States the method by which the Comptroller may refund taxes to business corporations entitled to credit.
219-l	628	Definition of personal property changed, when owned by business corporation.
220	626	The stock of New York corporations and the stock of national banking associations located within the State, when owned by nonresident decedents, are now taxable under the Transfer Tax Law.
243	626	Definitions of tangible and intangible property eliminated from section.
229	444	Increases the salary of the transfer tax appraiser of Orange county and the assessors' clerk of Erie county.
234-16 (new)	641	Gives the surrogate in counties of over one million inhabitants and in counties having a population of over three hundred thousand inhabitants included in or adjoining the city containing a population of over one million inhabitants, the salary of $2,500, in addition to his salary from the county, but the entire amount must not exceed the salary of a justice of the Supreme Court of that judicial district.
350–385 (Art. 16, new)	627	Adds new article 16 to the Tax Law, imposing a personal income tax upon all residents of the State and upon the entire net income from property owned and from every business, trade, profession or occupation carried on in this State by nonresidents. The statute provides for a graduated tax of one per centum of the amount of the net income up to ten thousand dollars, two per centum of the amount in excess of ten thousand dollars up to fifty thousand dollars. and three per centum of the net income in excess of fifty thousand dollars. An exemption of one thousand dollars is allowed to single persons residents of the State; and in the case of the head of a family or a married person living with husband or wife, a personal exemption of two thousand dollars is allowed. The statute exempts to a large extent intangible personal property from the personal property tax. There are many other provisions.

Opinions and Rulings. The opinions of the counsel of the Commission have been sought by corporations, individuals and officials from every part of the State and in many cases, such as the construction of section 352 of the Personal Income Tax Law, of section 219-j relating to the exemption of personal property of foreign corporations, the taxability of the real estate of the United States Housing Corporation, of various municipalities regarding the legality of certain proposed amendments to their charters, these opinions have been published, and in the case of section 352 of the Personal Income Tax Law and of 219-j, were circulated by financial institutions and followed by them.

Tax Law Memoranda. The Division has continued its policy of preparing from time to time memoranda on important phases of taxation, and as a result the following memoranda were added during the year to the files of the Division:

Construction of statutes.
Payment of school taxes by public service corporations.
Special franchise valuations — duty of local assessors with respect thereto.
Assessments — when illegal and when not illegal but merely excessive.
Taxation of masonic organizations.
Foreign corporations doing business through factors and commission merchants.
Taxation of debts, credits, stocks, bonds, etc.
Recovery of taxes paid.
Voluntary and involuntary assessments.

Bulletin of Instructions for Assessors. New York State Tax Bulletin, Vol. 4, No. 2, was prepared and mailed during the month of June to assessors throughout the State. The bulletin contained in substance the provisions of the Personal Income Tax Law affecting the duties of local assessors, the definition of personal property of business corporations exempt under the provisions of article 9-a, and other changes in the laws of which local assessing officers should be apprised. The assessors were also informed at this time that the two expert appraisers assigned to the local assessment bureau of the department would be at the

service of the localities desiring them for the appraisal of corporate property without charge. All assessors were advised of the advantage to the locality of full value assessments as affecting the amount of the personal income tax which they would receive.

1919 Edition of the Tax Law. The law division prepared and caused to be published an edition of the Tax Law with all the amendments of the legislative session of 1919. The law including the Personal Income Tax Law has been completely indexed with a rearrangement and reclassification of the consolidated index.

Litigation referred to the Attorney-General. The State Tax Commission is represented in court by the Attorney-General. Most of the litigation against the Commission is in the form of certiorari proceedings brought to review special franchise assessments. Many settlements of these proceedings are effected through conference and correspondence between the attorneys for the relators, the Attorney-General, and this department.

County Equalization Appeals. The following appeals to the Commission from equalizations by boards of supervisors have been determined or discontinued:

Town of Hancock	Delaware county, 1917–18.
City of Poughkeepsie	Dutchess county, 1918.
City of Troy	Rensselaer county, 1918.
City of Watertown	Jefferson county, 1918.

The following equalization appeals are still pending:

City of Lackawanna	Erie county, 1917–18.
City of Buffalo	Erie county, 1917–18.
City of New Rochelle	Westchester county, 1917–18.
City of Middletown	Orange county, 1919.
City of Gloversville	Fulton county, 1918.

The determination of the State Tax Commission in the appeal of the city of New Rochelle from the equalization made by the board of supervisors of Westchester county for the year 1916 was unanimously sustained by the Appellate Division of the Supreme Court, November 12, 1919, and affirmed by the Court of Appeals.

In the case of the People of the State of New York ex rel. the County of Westchester, relator, against the State Tax Commission, it was contended that reviews by the Commission under sections 175 et seq., of the Tax Law were unconstitutional as contravening the provisions of the State and Federal constitutions relating to due process of law and also violating the home rule provision of the Constitution of the State of New York. Under date of December 5, 1919, the Appellate Division of the Supreme Court unanimously affirmed the decision of the Supreme Court of Westchester county upholding the constitutionality of the equalization appeal sections of the Tax Law.

COURT DECISIONS.

General.

People ex rel. Masonic Temple v. Ostrander, 173 N. Y. S. 356 (Supreme Court).

Syracuse Masonic Temple held not entitled to exemption under subdivision 7 of section 4 of the Tax Law. The use of a portion of relator's property for club purposes and the acceptance of a pecuniary profit for the benefit of the members of the lodges to pay their club dues are a violation both of the law and the spirit of the statute. The court also held that a mere indefinite purpose to appropriate the net income to maintain asylums, etc. (in this case there was no net income) is not sufficient to entitle the property to exemption; that there must be a definite appropriation of the funds to one or more of the purposes specified in the statute.

Matter of O'Neill (Special Term), New York Law Journal, Jan. 14, 1919.

While a court has no power to permit an amendment to petition upon a motion to quash a writ because of jurisdictional defects in the petition a motion to amend a petition was granted, although the petition failed to comply with the statute in that it did not specify the "instances in which such inequality exists," since it appeared that the petition otherwise contained facts sufficient to show that there was inequality.

People ex rel. Brown v. Purdy, 180 A. D. 54; aff'd 226 N. Y. (Memo.) 79.

Held that in the assessment of vacant land entirely within the lines of a former street which has been closed and discontinued, account should be taken of the depressing effect upon the value of the land of an assessment to be made for the benefits gathered by the closing of the street.

People ex rel. Ludwig and Company v. Purdy et al. (Special Term), New York Law Journal, April 8, 1919.

Held that merchandise sent to branch stores of relator for sale in other states should be deducted from relator's assets as having a permanent situs outside the State. Held, also, that debts due to a domestic corporation, including those owing by nonresident debtors, even though this might expose the corporation to double

taxation, was taxable in New York nothwithstanding the fact that some of relator's goods had been sold on conditional bills of sale in other states and the amount due thereon acquired a situs outside the State.

Hinds, Hayden & Company v. Purdy (Special Term), New York Law Journal, April 3, 1919.

Although the relator's surplus and a portion of its capital stock were represented by property claimed to be exempt and the taxable assets were, in consequence, less than the par value of the capital stock issued by it. Held that relator was entitled to a deduction of the portion of such surplus profits not exceeding 10 per cent. of the par value, under section 12 of the Tax Law.

People ex rel. 176 W. 87th Street Corporation v. Cantor et al. (Special Term), New York Law Journal, April 17, 1919.

Held that a building, the construction of which was commenced since the preceding first day of October, was not exempt from taxation where it appeared that it had been completed pursuant to the requirements of the Building and Tenement House Law, although many of the fixtures therein had not been installed.

Matter of Estates of Charles N. Tweed, 107 Misc. 600.

Held that the personal property assessment against a testator who died a resident of the city of New York on October 11th, was payable out of the personal estate in the hands of his executor, October 1st, being the date of taxable status in that city.

Rice Memorial Hospital v. Village of North Tarrytown, 187 A. D. 855.

Held that in a suit by a hospital corporation, exempt from taxation under subdivision 7 of section 4 of the Tax Law, to have illegal taxes cancelled as a cloud upon the title, it was no defense to the action that the corporation did not appear on grievance day.

In the Matter of the Application of Mary Immaculate School of Eagle Park, 188 A. D. 5.

Held that the property of an educational institution, part of which consisted of woodland, including buildings situated thereon, was exempt from taxation under subdivision 7 of section 4 of the Tax Law, all being an integral part of the estate and included in the school's educational purposes within the meaning of the statute.

People ex rel. Franklin Mill Company v. Collins, 109 Misc. 1.

Held that section 219-j of article 9-a of the Tax Law exempts the personal property of corporations taxable thereunder from all taxation including taxation for school purposes.

People ex rel. Wilson v. Cantor (Supreme Court, Special Term), N. Y. Law Journal, November 6, 1919.

Held that the tax valuation fixed by the court upon review of an assessment made by the Department of Taxes and Assessments in the city of New York is *res adjudicata* as to succeeding years in the absence of proof of change in value or conditions surrounding the assessment, the board of assessors remaining the same.

People ex rel. Federal Terra Cotta Co. v. Purdy, 189 A. D. 131.

Held that in enacting section 12 of the Tax Law, the intention of the Legislature was to provide that the net assets, not exempt, of every company liable to taxation, including surplus exceeding 10 per cent. of the par value of its capital, should be assessed at their actual value.

Franchise.

People ex rel. Pennsylvania Gas Company v. Saxe (A. D.), decided January term, 1919.

Held that a franchise tax may be required of a foreign corporation as a condition of exercising its corporate privileges in this State without regard to whether it is engaged in interstate commerce or foreign commerce; that section 186 does not provide for a tax upon earnings or excess dividends, but merely measures the amount of compensation to be paid the State for the privilege of doing business as a corporation in part by earnings and part by excess dividends.

People ex rel. Iroquois Door Company v. Knapp, 186 A. D. 172.

Held that section 219-j of article 9-a enacted in 1917, was general tax legislation and did not create any contractual rights; and that the retroactive amendment thereto in 1918 did not impair the rights of the corporation in a district with a fiscal year beginning with July, although it had paid the franchise tax prior to the amendment.

People ex rel. General Chemical Company v. The Assessors of the town of Phillipstown, New York (Special Term, Westchester County).

Held that a personal property assessment made in 1918 against a manufacturing and mercantile corporation was illegal and void, and that taxes based on such assessment-roll were not taxes for the fiscal year ending December 31, 1917.

People ex rel. Barcalo Manufacturing Co. v. Knapp et al.; People ex rel. American Broom & Brush Co. v. Knapp et al. (A. D., Third Department), New York Law Journal, June 4, 1919.

Held that relators were not permitted to deduct excess profits and income taxes, paid to the Federal government, from their net income before paying the State franchise tax under article 9-a of the Tax Law.

People ex rel. Post & McCord Inc. v. Cantor et el. (Supreme Court, Special Term), New York Law Journal, August 6, 1919.

Held that a corporation engaged in the work of furnishing and erecting steel structures in accordance with the plans and specifications of engineers or architects, is not a manufacturing or mercantile corporation within the meaning of section 208 of article 9-a of the Tax Law, as the statute read in 1917.

Special Franchise

People ex rel. New York Central v. State Board of Tax Commissioners (Supreme Court, Special Term), N. Y. Law Journal, December 17, 1919.

Held that relator's evidence of prior occupation should be stricken out since it appeared that the question of prior occupation was not raised in the petition for the writ. For the same reason the court held that the relator was not entitled to raise the question whether the assessments were irregular or illegal for insufficiency of the form of notice of the assessment. Not being in a position to question the assessment of the intangible right — the use of the crossing at the highway — the relator was not entitled to a reduction of the assessment merely upon proof of overvaluation of the intangible property at this point of its line.

People ex rel Mexican Telegraph Co. v. State Tax Commission (A. D. N. Y. Law Journal, June 28, 1919).

Affirms decision of lower court re power of State to tax to three mile limit.

Personal Income

The Yale & Towne Mfg. Co. v. Travis, U. S. District Court (New York Law Journal, August 13, 1919.)

Held that the personal income tax law (chapter 627, Laws 1919) in so far as it affects non-residents and attempts to collect a tax against them without according to them the privileges granted to residents, is unconstitutional and void.

Opinions of the Attorney-General.

State Department Reports, Volume 18, page 73, dated November 19, 1918.

Where a trust agreement was executed to secure the issue of notes and bonds and other obligations and subsequently, when the notes had been reduced in amount, a supplemental indenture was made whereby the personal property held as collateral was withdrawn and real property conveyed to the trustees for the purposes of the original agreement, it was held that since the reduced amount represented the amount of notes secured when real property was brought in, the tax should be computed upon this reduced amount as the recording is based upon the amount of indebtedness secured when the lien on real property was created.

January 23, 1919.

Where a mortgage has been recorded and the mortgage tax paid and thereafter a portion of the mortgaged premises is released from the lien of the mortgage, the recording of a later instrument subjecting the released portion anew to the lien on the original mortgage is not taxable under section 253 of the Tax Law.

February 5, 1919.

A parsonage used generally and exclusively for the home of the pastor remains exempt from taxation so long as it is entirely devoted to that purpose, and this, irrespective of the fact that the parsonage is temporarily vacant owing to the resignation of the last pastor and the failure of the congregation to select another.

February 6, 1919.

Where a mortgage is made to a savings and loan association under the installment premium plan, and the mortgagor agrees to pay a certain sum, together with contributions and duties, interest and weekly premium until the original sum is paid, the principal debt or obligation upon which the mortgage tax should be computed is the original sum secured, and premiums, duties, fines and penalties are merely incidental and are not taxable any more than is the more common incident interest.

March 8, 1919. State Department Reports. Advance Sheets No. 111, page 35.

Where a mortgage secures the payment of money loaned, as well as the payment of premiums issued by an insurance company, the policy not being issued exclusively as additional collateral to the loan, the maximum total of the premiums not being determinable from the terms of the mortgage, the mortgage is indeterminate and the mortgagee should be permitted to file a statement under section 256 and pay the tax accordingly.

May 7, 1919.

Where a mortgage is made in the form of a deed absolute with a separate agreement for defeasance and the former is recorded without payment of a mortgage tax, if the latter is later recorded a mortgage tax should be paid, together with penalties under section 258 of the Tax Law.

IN CONCLUSION

While the Commission does not wish to be understood as in any manner or respect criticising the administration of any of the tax laws of the State by other officials or departments, it is, nevertheless, of the opinion that all tax laws should be administered by the State Tax Commission composed of a body of experts and having sufficient tenure of office to enable the Commissioners to devote their whole time and attention to the administration of the office and to the study and improvement of our tax systems.

Taxation and the administration of the tax laws of the State are becoming more and more important until no other subject connected with State finances attracts so much attention. The objects sought are not only the raising of revenue for the support of the government, but the raising of it in such a way as to distribute the burden fairly and equitably and to collect that revenue with as little inconvenience to the public as possible.

Respectfully submitted,

WALTER H. KNAPP,
President.

JOHN J. MERRILL,
M. J. WALSH,
State Tax Commission.

1919 RATES OF EQUALIZATION

Rates of Equalization of Special Franchise Assessments for the Year 1919 for All Cities, Towns and Villages of the State, as Finally Fixed and Determined by the State Tax Commission.

MEETING OF STATE BOARD OF EQUALIZATION

At a meeting of the State Board of Equalization held pursuant to law, Tuesday, September 2, 1919, at the office of the State Tax Commission in the city of Albany, N. Y.

Present:

State Tax Commissioner Hon. Walter H. Knapp.
State Tax Commissioner Hon. John J. Merrill.

A quorum of the members of said Board not being present said meeting was adjourned to Tuesday, September 9, 1919 at two o'clock p. m., at the office of the State Tax Commission in the city of Albany, New York.

HORACE G. TENNANT,
Secretary of the State Board of Equalization.

The State Board of Equalization met in the office of the State Tax Commission at Albany, N. Y., on Tuesday, September 9, 1919, pursuant to adjournment taken Tuesday September 2, 1919.

Present:

Hon. Eugene M. Travis, State Comptroller.
Hon. James L. Wells, The Treasurer,
Francis M. Hugo, Secretary of State,
Walter H. Knapp, State Tax Commissioner,
John J. Merrill, State Tax Commissioner,
Michael J. Walsh, State Tax Commissioner.

Meeting called to order by Walter H. Knapp, President of the State Tax Commission.

On motion of President Knapp, seconded by Mr. Travis, Mr. Wells was unanimously chosen as chairman.

On motion of Mr. Knapp, seconded by Mr. Hugo, Mr. Marshall M. France was unanimously chosen secretary.

Table of Equalization proposed by the State Tax Commission submitted by Mr. Knapp for consideration.

On invitation of Chairman Wells, the following gentlemen were heard by the Board:

Hon. Jacob A. Cantor, representing the Department of Taxes and Assessments of New York City, spoke in behalf of said city; Mr. John H. Ehrehart, representing the New York Central Railroad Company, Consolidated Gas Company and New York Edison Company and allied interests, spoke of the assessment in New York City.

The Board went into executive session, and after a brief discussion, Mr. Knapp moved the adoption of the equalization table submitted. Seconded by Mr. Merrill and adopted by the following votes:

Ayes: Eugene M. Travis, James L. Wells, Walter H. Knapp, John J. Merrill and Michael J. Walsh;

Noes: Francis M. Hugo.

Motion made and carried that the Board adjourn sine die.

MARSHALL M. FRANCE,
Secretary.

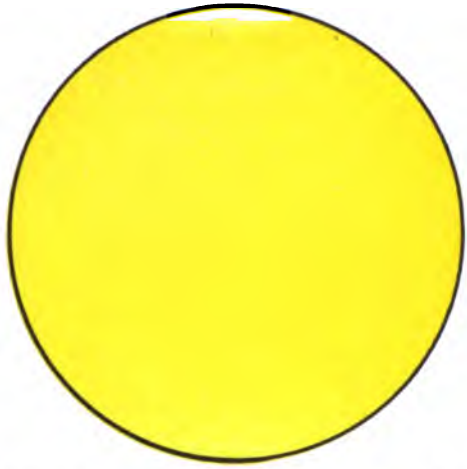
45 States of the Union have Inheritance Taxation



16 States of the Union in which Inheritance Taxation is administered by State Tax Departments or State Tax Commissions

29 States of the Union in which Inheritance Taxation is administered by some other State or local officials

STATUS OF TAXATION IN OTHER STATES

STATUS OF TAXATION IN OTHER STATES

ALABAMA

Real estate is assessed biennially and personal property annually. The assessment is made by county assessors on the basis of sworn statements furnished by the taxpayers. The penalty for failure to make a return to the assessor is 10 per cent added to the assessment. Improvements made to real estate are entered annually upon the assessment roll. All property is assessed at 60 per cent of its fair and reasonable cash value. Previous to 1919 the statute required property to be assessed at full value.

In 1885 a State Board of Assessors was established whose work was to value the operating property of railroads, telephone and telegraph companies. Its duties were transferred to the State Board of Equalization in 1915.

A State Tax Commissioner was established in 1897. Ten years later it was changed to the State Tax Commission, to consist of three members, and in 1915 it was changed to a State Board of Equalization. This board has supervisory powers over local taxing officials and has the power to order reassessments of property.

The state constitution, adopted in 1901, provided that the Legislature might enact an inheritance tax law, but no such law has as yet been placed upon the statute books. From 1848 to 1868 the commonwealth had a collateral inheritance tax law, but in the latter year it was repealed.

The income tax law enacted in 1919 was declared unconstitutional by the supreme court of the state.

The commonwealth has a blue sky law regulating investment companies.

Public service companies are assessed by the State Board of Equalization, such assessment to include both tangible and intangible property.

ARIZONA

A State Board of Equalization was established in 1887. Upon the creation of a State Tax Commission in 1912 its duties were transferred to this commission. Besides supervising the work of county assessors, making a state equalization, and assessing public utilities, it has the power to order reassessments of property.

Assessment of property is made annually by county assessors, property is assessed upon the sworn statement furnished the assessor by the taxpayer and personal visitation by the assessor. The penalty for furnishing a false list is assessment for that year at five times the value of the property.

In Arizona the members of the State Tax Commission are elected by the people.

The state constitution gives cities, towns and villages power to make local improvements, by special assessments on property benefited.

An inheritance tax law was enacted in 1912, taxing both direct and collateral heirs at rates which are progressive. It is administered by the state treasurer.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

Producing mines, railroads, telephone, telegraph, express, sleeping car companies and private car lines are assessed by the State Tax Commission. The method used in assessing producing mines is to capitalize the average net earnings for a period of years at varying rates according to the classification of the mine, said rates ranging from 15 to 33⅓ per cent and no depreciation or interest being allowed. With railroads, telephone and telegraph companies the average net earnings for a period of years are capitalized at 8 per cent. In case there are no net earnings the property is assessed on a physical or reconstruction basis. Express companies pay a state tax of 6 per cent of their gross earnings earned solely within the state.

ARKANSAS

Real estate is assessed once every two years in the odd numbered years. All other assessments are made annually. Every person of full age and sound mind is required to list all property

owned or in his possession. For refusal of the taxpayer to make a list of his property after demand duly made by the assessor, a penalty equal to 25 per cent of the total taxes on the property for that year is levied against it.

A State Tax Commission was created in 1909. It also acts as a State Board of Equalization. The State Tax Commission supervises the work of the county and township assessors and assumed all the duties of the State Board of Railroad Commissioners, which had been in existence since 1899.

The state constitution permits special assessments on real estate for local improvements in cities and towns.

All taxes, state, county and municipal, are collected by the county collector and his deputies.

An inheritance tax law was enacted in 1901, which taxed collateral heirs only. In 1907 it was extended to also include direct heirs. The rates are progressive. The inheritance tax law is administered by the state treasurer.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

The property of railroad, telephone, telegraph, express, sleeping car and pipe line companies, and of every power, heating, electric, gas, water, street car, toll road, toll bridge and similar corporations doing business in the state is assessed by the State Tax Commission.

CALIFORNIA

California is one of the three states of the Union which has always had an annual assessment of property.

Land and improvements are assessed separately.

Taxpayers are to file with the assessors a list of their property, both real and personal. A refusal to file such a list subjects the taxpayer to a fine of $100. One-half of such fine is payable to the county treasury and one-half to the assessor.

The commonwealth has county assessors who are elected by the people for a term of four years.

A State Board of Equalization elected from congressional districts was organized in 1870. In 1879 this board was given the power to assess railroads and in 1910 the assessment of all other

public utilities was placed in its hands. The State Board of Equalization now consists of the state comptroller and four other members elected by districts.

Owing to a court decision in 1876 that mortgages were not property in the meaning of the constitution, mortgages, deeds of trust, contracts or other obligations by which a debt is secured, when land is pledged as security for the payment thereof, together with the money represented by such debt, are not taxable, the interest represented thereby in the property covered is taxed to the property owner.

An inheritance tax law was enacted in 1893 which taxed collateral heirs only. In 1905 it was extended to also include direct heirs. The rates are progressive. The administration of the law is under the jurisdiction of the Superior Court of the state.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

In the years 1912, 1914, 1916 and 1918 the electorate of the state voted on a single tax referendum with a majority against it in 1912 of 74,638; in 1914 of 108,106; in 1916 of 316,201; and in 1918 of 242,246. This amendment voted on was "that state, county, municipal and district taxes shall be raised by taxation of land values exclusive of improvements, and no tax shall be imposed on any labor, product, business or person."

The rates at which public utilities are taxed on their gross earnings by the State Board of Equalization are as follows: Companies engaged in the transmission or sale of gas or electricity, 5.6 per cent; railroads, including street railways, 5¼ per cent; telephone and telegraph companies, 4.2 per cent; sleeping car, dining car, drawing room car, palace car companies, refrigerator, oil, stock, fruit and other car loaning and car companies, 3.95 per cent; and companies doing express business on any railroad, steamboat, vessel or stage line 9/10 of 1 per cent.

COLORADO

All property is to be assessed annually. Taxpayers are required to list their property. Failure to file a return or making a false return incurs a penalty of not more than $1,000.

Assessment of property is made by county assessors.

A State Board of Equalization was established in 1876. An attempt to amend the state constitution so as to abolish the State Board of Equalization was defeated by the electors in 1912.

A State Tax Commission was created in 1911. Besides supervising the work of county assessors it has the power to make a reassessment of property when in its judgment property has not been assessed at its true and full cash value by county assessors.

The collection of taxes, state, county and municipal, is made by the county treasurer.

An inheritance tax law was enacted in 1901, taxing both direct and collateral heirs, and the rates are progressive. The inheritance tax law is administered by the State Attorney-General.

There is no state income tax law.

In 1877 the assessment of railroads was placed in the hands of the State Board of Equalization; in 1885 telephone, telegraph and car companies; and in 1902 express companies. Upon the creation of the State Tax Commission in 1911 the assessment of these companies was placed in the hands of this commission.

Railroads, telephone, telegraph, express, sleeping car and private car companies and other public utility companies are assessed by the State Tax Commission upon the true value of the property of such companies in the state, determined by the unit rule on a mileage basis. Special privileges, franchises and the like are classed as intangible property and assessed in connection with the tangible property as a unit.

CONNECTICUT

In 1917 the Legislature made it mandatory for all towns in the state to revalue its real estate once in ten years. Real estate in each town must be viewed by at least two of the assessors and the first revaluation must be completed on or before February 1, 1920.

Assessment of property is made by town assessors. Taxpayers are required to file with the assessor a verified list of all their taxable property. If the taxpayer fails to make out such list, the assessors must prepare the same, adding 10 per cent to the valuation as a penalty.

A State Board of Equalization was established in 1820. At present it consists of the State Comptroller, the State Treasurer and the State Tax Commissioner.

The office of State Tax Commissioner was created in 1901. He is appointed by the Governor for a term of four years.

An inheritance tax law was enacted in 1899, which taxed collateral heirs only. In 1897 it was extended to also include direct heirs. The rates are progressive. Until 1915 it was administered by the State Treasurer, but since that date its administration is in the hands of the State Tax Commissioner.

A business tax on all corporations, exclusive of public utilities, bank and insurance companies, was enacted in 1915. The rate is 2 per cent on the net earnings of such corporations.

Public utilities were taxed upon their gross earnings as follows: Telephone, telegraph, express and car companies in 1913; and railroads, street railways, water, gas, electric and power companies in 1915. The assessment is made by the State Board of Equalization.

The rates at which public utilities are taxed upon their gross earnings are as follows: Street railways, 4¼ per cent; telephone companies, 4 per cent; railroads, 3½ per cent; telegraph, cable and dining, sleeping, chair or parlor car companies, 3 per cent; express companies, 2 per cent; and water, gas, electric and power companies, 1½ per cent.

DELAWARE

The assessment of real estate outside of Wilmington is made every fourth year, but the district assessors each year revise the same. In Wilmington there is an annual assessment of both real and personal property. Personal property throughout the state is assessed annually.

Delaware has no State Tax Commission. The people elect district assessors for each of the hundreds in the three counties of the State, who make assessments of property, both real and personal. Each county has a board of assessment which is appointed by the levy court of the county. It supervises the work of assessment as made by the district assessors.

Single tax advocates from all over the country concentrated their efforts on Delaware in 1895 and 1896, hoping that by capturing one state the single tax system would spread throughout the nation. The new state constitution, adopted in 1897, provides that "In all assessments of the value of real estate for taxation the value of the land and the value of the buildings and improvements thereon shall be included." This section was inserted in the state constitution through the efforts of the opponents of the single tax system.

An inheritance tax law was enacted in 1869 which taxed collateral heirs only. In 1917 it was extended to also include direct heirs. The rates are progressive. The law is administered by the State Treasurer.

An income tax law was enacted in 1917. It imposes a tax of 1 per cent on net incomes above $1,000. The law is administered by the State Treasurer.

Public utilities are taxed by many special laws. Telephone, telegraph and cable companies have a tax on wire mileage and transmitters in use, and express companies pay a tax of 6 per cent on gross earnings in the state. Electric heat companies pay a tax of one mill on the dollar on gross receipts in the state. Oil and pipe line companies pay a tax of 3/5 of 1 per cent on gross earnings in the state.

Telegraph companies also pay annually sixty cents per mile for the longest wire in the state, thirty cents per mile for the next longest, and twenty cents per mile for each other wire in the state.

Telephone companies are taxed the same as telegraph companies, with an additional tax of twenty-five cents on each transmitter located in the state.

The following railroads are allowed to commute all their other state taxes by the payment of specific amounts: Philadelphia, Wilmington and Baltimore Railway Company, $50,000; Baltimore and Philadelphia Railway, $30,000; Delaware Railway, $25,000; Philadelphia and Reading Railway, $5,000; Delaware, Maryland and Virginia Railway, $1,500; Maryland, Delaware and Virginia Railway, $500.

FLORIDA

An annual assessment of property is made by county assessors from lists furnished by taxpayers. Failure of the taxpayer to list his property causes him to lose the right to a reduction of valuation.

The only state tax upon public utilities is an annual license tax of $10 for every mile of railroad tracks in the state, one-half of the receipts being distributed to the various counties in proportion to the mileage. A state railroad assessment board was established in 1887.

A State Tax Commission was created in 1913. It was abolished in 1918.

The commonwealth has no inheritance tax law.

A state income tax law was in force from 1845 to 1855, when the system was abolished.

GEORGIA

An annual assessment of property is made by county board of assessors based upon sworn statements of taxpayers listing their property. Persons who fail to make lists are penalized by double taxation.

The office of State Tax Commissioner was created in 1913. He is really an equalization commissioner as his principal duty is the equalization of local assessments as between counties.

An inheritance tax law was enacted in 1913 which taxed both direct and collateral heirs. The law is administered by the State Tax Commissioner.

The commonwealth has a blue sky law regulating investment companies.

A law enacted in 1874 required certain corporations to be assessed by the State Comptroller-General. This includes public utilities and the assessment is apportioned to the different counties according to mileage.

IDAHO

An annual assessment of property is made by county assessors. Each taxpayer is required to furnish under oath a list of his

property. Refusal to make a statement deprives the taxpayer of all rights before the county board of equalization.

Land is classified in the assessment-roll as agricultural, timber, cut-over and burnt, mineral, grazing and waste lands, and city and town lots, and the two latter are further classified as business and residence lots.

A State Board of Equalization was established in 1887. It consists of the Governor, Secretary of State, Attorney-General, Auditor and Treasurer.

A State Tax Commission was created in 1913. It was abolished in 1915. This was due to a decision of the Supreme Court with respect to the authority of the Commission to compel a county board of equalization to adopt its judgment in equalizing property liable to taxation. Under the provisions of the state constitution no appointive board can assess property.

An inheritance tax law was enacted in 1907, taxing both direct and collateral heirs, and the rates are progressive. It is administered by the Probate Court.

The commonwealth has a blue sky law regulating investment companies.

There is no state income tax law.

Public utilities are assessed by the State Board of Equalization. The assessment is apportioned among the counties according to mileage.

ILLINOIS

Real estate is assessed once every four years, but the general assessment is corrected annually for changes prior to April 1st. The last assessment was made in 1919. Personal property is assessed annually. Taxpayers are required to list their property. While owners of real estate are required to list such real estate, the value is determined by the assessor on actual view.

A law was enacted in 1898 accepting 20 per cent of full value as the legal basis of assessment of property. In 1909 it was changed to 33⅓ per cent. In 1919 it was changed to 50 per cent.

Assessment of property is to be made as of April 1st. Assessors shall set down in separate columns in the assessment-rolls the number of acres in wheat, corn, oats, meadow and other field

products, in inclosed pastures, orchards and woodlands, whether inclosed or not in that year.

The state constitution, adopted in 1870, authorized cities, towns and villages to make local improvements by special assessments upon property benefited. But cities, towns and villages had been levying special assessments prior to 1870 although not empowered to do so under the constitution of the state. A court decision in 1864 held that a special assessment was not a tax and that special assessments are the exercise of the power of eminent domain.

Part of the state operates under the township system of taxation, having assessors elected by the townships who assess property in those towns. In other parts of the state, in counties having a population of less than 125,000, the county treasurer is ex-officio the county assessor and either he or his deputies make the assessment. In counties having a population of 125,000 or more there is a board of assessors of five members elected by the people who assess property. The county assessor system prevails in the southern part of the state where the early settlers came largely from the south, while the township system prevails in the northern part of the state where the early settlers came largely from New England.

A State Board of Equalization elected from congressional districts was established in 1867. It was abolished in 1919 and its powers and duties transferred to the State Tax Commission.

A State Tax Commission was created in 1919 and constitutes a division of the state department of finance. The State Tax Commission directs and supervises the assessment of all real and personal property within the state and has the power to order reassessments of property.

An inheritance tax law was enacted in 1895, taxing both direct and collateral heirs, and the rates are progressive. It is administered by the State Treasurer.

A blue sky law was enacted in 1919 regulating investment companies.

There is no state income tax law.

In 1872 a law was enacted providing that the assessment of railroad track and rolling stock of railroads should be made by

the State Board of Equalization instead of by local assessors, as formerly.

Public utilities are assessed in part by the State Tax Commission.

The Illinois Central Railroad, according to the requirements of its charter, pays to the state 7 per cent of its gross earnings. All other railroads are assessed on their railroad track and rolling stock by the State Tax Commission and upon their other real estate and personalty by local assessors. Other corporations are assessed by local assessors on the value of their tangible property; and by the State Tax Commision on the excess in the value of their capital stock, including the franchise over the value of their tangible property.

INDIANA

Real estate is assessed but once every four years. The state has tried at different times, periods of five, two, six and finally four years, as the term of assessment of real estate.

The State Board of Tax Commissioners has the power to order reassessments of real estate oftener than four years, if it appears necessary.

Taxpayers are required to list their property, both real and personal, with the assessors. The inventory blanks furnished taxpayers contain 116 questions. For failure to give a true list of property the taxpayer is liable to a fine of not less than $10 nor more than $500.

The assessment of property is made by township assessors, who work under the immediate supervision of the county assessors, who in turn are under the direction of the State Board of Tax Commissioners.

All taxes, state, county and municipal are collected by the county treasurer. An exception to this is that cities in the larger class collect the city taxes.

A State Board of Equalization was established in 1852. It became the State Board of Tax Commissioners in 1891.

An inheritance tax law was enacted in 1913, taxing both direct and collateral heirs, and the rates are progressive. It is administered by the State Board of Tax Commissioners.

There is no state income tax law.

In 1872 railroad and telegraph companies were first assessed by the State Board of Equalization. In 1881 telephone companies were brought under its jurisdiction.

Public utilities are taxed by the State Board of Tax Commismissioners upon the excess value of their capital stock over the assessed value of their property.

IOWA

All property subject to taxation is required to be listed by the owner at its actual value. It is then assessed for taxation at 25 per cent of such actual value. Real estate is listed once every two years, in the odd year. In the even numbered years, the assessment roll is corrected by adding the value of the improvements, made during the preceding year. Personal property is assessed annually.

Since 1858 the state has had township and city assessors. Previous to that time it had county assessors. The adoption of the township system of assessment of property appears to have been the logical result of the settlement of the state from the northern states where that type of local institutions predominated.

A State Board of Equalization was established in 1851. It is known as the executive council and consists of the Governor, Secretary of State, auditor and treasurer.

There is no State Tax Commission.

The commonwealth has a blue sky law regulating investment companies.

An inheritance tax law was enacted in 1896 which taxes collateral heirs only. The rates are progressive. The inheritance tax law is adminstered by the State Treasurer.

There is no state income tax law.

State, county and municipal taxes are collected by the county treasurers.

In 1862 railroads were subjected to a tax of 1 per cent on gross earnings in lieu of all other taxes. The gross earnings system of railroad taxation was abolished in 1872 and the ad valorem system established. Telephone and telegraph companies were assessed

under the ad valorem system in 1900. The assessment of railroads, telephone and telegraph companies is made by the executive council and apportioned among the counties on a mileage basis.

KANSAS

Before 1876 assessment of property was made annually. From 1876 to 1918 the state had biennial assessments of real estate and improvements. Since 1918 it has had quadrennial assessments. However, cities of the first and second class can have annual assessments of real estate; and the board of county commissioners of each county in the state may by resolution order an assessment in the even numbered year between the years limiting the quadrennial period.

Personal property is assessed annually.

Taxpayers are required to list their property with the assessors. A fine of not less than fifty dollars nor more than five thousand dollars is the penalty for failing to submit a sworn statement or submitting a false statement.

As a territory Kansas had alternated between the county and the township as the assessment unit according as the balance of power shifted between the sympathizers of northern and southern institutions, but in 1869 the township type was definitely adopted. In 1907 the office of county assessor was established, but the county assessor is required to appoint the township trustee as his deputy.

A State Board of Equalization was established in 1861. It was abolished in 1907 when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1907. It has a general supervision over the assessment of property and has the power to order reassessments.

An inheritance tax law was enacted in 1909 taxing both direct and collateral heirs. This law was repealed in 1913. In 1915 a new law was enacted taxing only collateral heirs and in 1919 the tax on direct heirs was restored. The inheritance tax law is administered by the State Tax Commission.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

State, county and municipal taxes are collected by county treasurers.

A law enacted in 1908 places a limitation on county tax rates varying according to the assessed valuation of the county.

In 1876 railroads were assessed by a State Board of Railroad Assessors. In 1897 inter-county and inter-state telephone and telegraph companies were assessed by the State Board, the title of which was changed from State Board of Railroad Assessors to State Board of Appraisers. Upon the creation of the State Tax Commission in 1907 the central assessment was extended to all express, sleeping car, gas, oil and pipe line companies. At present all public utilities are assessed by the State Tax Commission when their property extends into more than one county. If all in one county, it is assessed by the county assessors.

KENTUCKY

An annual assessment of property is made based upon a sworn statement of property by each taxpayer. Refusal to list property is subject to a fine of not over one hundred dollars. Rendering a false statement is subject to a fine of not over five hundred dollars.

Since 1918 assessment of property has been made by county tax commissioners. One commissioner is elected by the people for each county, but before the candidate's name can appear upon the official ballot for election such candidate must have passed an examination, held by the State Tax Commission, as to fitness.

A State Board of Equalization was established in 1884. It was abolished in 1917 when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1917. It supervises the work of county tax commissioners, makes the state equalization and has the power to make a reassessment of property.

An inheritance tax law was enacted in 1906 which taxed collateral heirs only. In 1916 it was extended to also include direct

heirs. The rates are progressive. County courts supervise the administration of the inheritance tax law.

There is no state income tax law.

Outside of cities, state, county and municipal taxes are collected by county sheriffs.

Public utilities are assessed by the State Tax Commission upon their franchises by taking the market value of the capital stock and bonds with allowances for tangible property otherwise assessed. When business is done in more than one state it is proportioned according to the gross earnings within the state.

LOUISIANA

Assessment of property is made annually. Taxpayers are required to swear to the list of their property.

There is one assessor for each parish elected by the people for a term of four years. However, the parish of Orleans has an assessor for each municipal district.

Outside the parish of Orleans, the taxes are collected by the sheriff. In the parish of Orleans taxes are collected by a tax collector who is elected by the people.

A State Board of Equalization was established in 1906. It was abolished in 1917, when its duties were transferred to the Board of State Affairs.

A Board of State Affairs was created in 1917. It supervises the work of parish assessors and makes the state equalization. It has all the essentials of a State Tax Commission.

An inheritance tax law was enacted in 1898, taxing both direct and collateral heirs. It is administered by the State Treasurer and the receipts go solely for the support of the public schools.

There is no state income tax law.

Public utilities are assessed by the Board of State Affairs.

MAINE

The state had a decennial assessment of real estate from 1820 to 1890, when the period was changed to a biennial term.

Taxpayers are notified by general notice to bring in a list of their property. Land and improvements are assessed separately. The assessment of property is made by town assessors.

A Board of State Assessors was created in 1891. It supervises the work of the local assessors, makes the state equalization, and has the power to make reassessments.

An inheritance tax law was enacted in 1893 which taxed collateral heirs only. In 1909 it was extended to also include direct heirs. The rates are progressive. Probate courts supervise the administration of the inheritance tax law.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the Board of State Assessors upon their gross receipts within the state.

MARYLAND

There is no annual assessment of property, but the State Tax Commission is obliged by law to enforce and execute a continuing method of assessment and to require that all property be reviewed for assessment at least once in every five years. The last reassessment of real estate was completed in 1917.

According to the report of the Special Tax Commission in 1913, assessment of property for the levying of state taxes has only been by act of the Legislature and at irregular intervals. In a period of little over one hundred years there have been but six reassessments. The first statewide assessment of property was made in 1777, followed by reassessments in 1812, 1841, 1852, 1866, 1876 and 1910.

The office of State Tax Commissioner was created in 1880 to administer the corporation taxes. It was abolished in 1914, when its duties were transferred to the recently created State Tax Commission.

A State Tax Commission was created in 1914. It supervises the work of local assessors.

An inheritance Tax Law was enacted in 1845, this being the third state in the Union to impose an inheritance tax. The tax is upon collateral heirs only and the law is administered by the State Treasurer.

There is no state income tax law.

Public utilities are taxed upon their gross earnings by the State Tax Commission.

MASSACHUSETTS

In 1634 there was enacted in the Colony of Massachusetts Bay the first general tax law in any American colony.

An annual assessment of property is made by township assessors. Under the statutes the assessors publish a notice requiring the inhabitants of each town or city to furnish verified lists of all their property. In case no list is filed the assessor estimates the value of the taxpayer's estate. If this appears excessive the taxpayer has the remedy of filing a list and submitting to a penalty of 50 per cent in addition to what the list shows in valuation.

The office of State Tax Commissioner was created in 1864 to supervise the work of local assessors.

An inheritance tax law was enacted in 1891 which taxed collateral heirs only. In 1907 it was extended to also include direct heirs. The rates are progressive. The inheritance tax law was at first administered by the State Treasurer, but in 1907 its administration was placed in the hands of the State Tax Commissioner.

A state income tax law was enacted in 1916 which is administered by the State Tax Commissioner. Incomes received from the trades, professions or employments are taxed at the rate of 1½ per cent; incomes received from dealing in intangible property are taxed at the rate of 3 per cent; and incomes received from intangibles are taxed at the rate of 6 per cent.

A recommendation of the State Tax Commissioner in his 1919 annual report was to the effect that the exemption of $250 from the income of the taxpayer on account of minor children, which is now fixed at eighteen years, be changed to twenty-one years, stating that there is much equity in the frequent complaint that the age limit of eighteen years is too low.

Public utilities are assessed by the State Tax Commissioner on their corporate excess. The corporate excess tax law was enacted in 1864. Regarding the taxation of corporate excess the Massachusetts Commission of Taxation in 1875 said: "This system of corporate taxation had its origin here, and may be fairly claimed as a Massachusetts specialty. We regard it as a

most valuable contribution to fiscal science, and other states have already copied its methods."

Section 15 of the Massachusetts tax law states that corporate excess within the commonwealth shall mean such proportion of the value of the capital stock as the assets, both real and personal, employed in any business within the commonwealth bear to the total of such assets of the corporation less certain deductions.

MICHIGAN

Assessment of property is made annually by township supervisors. Taxpayers must furnish supervisors with sworn statement of value of property. Willful neglect or refusal to furnish a sworn statement subjects the taxpayer to a fine ranging from one hundred dollars to one thousand dollars.

A State Board of equalization was established in 1851. It makes the state equalization and is composed of the Secretary of State, the Auditor-General, the Commissioner of the Land Office, the State Treasurer and the chairman of the State Board of Tax Commissioners.

The State Board of Tax Commissioners was created in 1899. It has supervisory powers over local assessing officers and has the power to make reassessments of property.

An inheritance tax law was enacted in 1899, which taxes both direct and collateral heirs, although the tax on direct heirs applies to personal property only. The inheritance tax law is administered by the Auditor-General.

The commonwealth has a blue sky law regulating investment companies.

There is no state income tax law.

The first law for taxing corporations by the state was nullified by the courts, a fate which necessitated a constitutional amendment, adopted in 1902. Railroads were first assessed by the State Board of Assessors on an ad valorem basis in 1903. In 1909 telephone and telegraph companies were assessed by the State Board of Assessors. The physical appraisal has been used for the telephone and telegraph companies as well as the railroads.

MINNESOTA

Real estate is assessed biennially in the even numbered years by township assessors. In odd numbered years the assessors correct the assessment for new structures or losses. Personal property is assessed annually. In assessing real estate the value of the land is determined separately from the value of all structures and improvements thereon.

Taxpayers are required to list their personal property. In the case of money and credits only failure to list causes the assessor to add 50 per cent to the estimated value. There is no penalty for failure to list other personal property.

Previous to 1913 the statute required all property to be assessed at full value. In that year a classification according to ownership took place and the assessment of it according to the following rates: Fifty per cent of full value for iron ore whether mined or unmined; 25 per cent for household goods and furniture; 33⅓ per cent for live stock, agricultural products, stocks of merchandise, manufacturers' manufactured articles and unplotted real estate; and 40 per cent for all remaining property. Money and credits are separately assessed at their full value and a flat rate of three mills applied.

State, county and municipal taxes are collected by county treasurers.

A State Board of Equalization was established in 1860, two years after the admittance of Minnesota as a state. In 1867 this board was required to equalize the annual assessments of personal property also. It was abolished in 1909, when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1907. It supervises the work of local assessors and has the power to make reassessment of property. It also makes the state equalization.

An inheritance tax law was enacted in 1905, taxing both direct and collateral heirs, and the rates are progressive. It is administered by the State Auditor.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

The introduction of the gross earnings method of taxation dates to 1873, when this system was first applied to railroads. In 1907 it was extended to telephone, freight line, express and insurance companies. In 1913 the State Tax Commission was placed in charge of all gross earnings taxes.

Telegraph, street railway, electric light and power, and gas companies are still assessed locally under the ad valorem method.

MISSISSIPPI

Real estate is assessed biennially; personal property annually. Taxpayers are required to furnish sworn lists of their property. Assessment is made by county assessors.

State and county taxes are collected by the county sheriff.

A State Tax Commission was created in 1916 to supervise the work of county assessors.

An inheritance tax law was enacted in 1918 taxing both direct and collateral heirs, and the rates are progressive. The inheritance tax law is administered by the State Tax Commission.

The commonwealth has a blue sky law regulating investment companies.

There is a state income tax law by which incomes in excess of $2,500 pay a tax of five mills on the dollar.

Public utilities are assessed by the State Tax Commission.

MISSOURI

Assessment is made annually. Taxpayers are required to make statements under oath of all their property with value thereof. Penalty is a fine ranging from $10 to $1,000.

Part of the state operates under the township system, having township assessors, while the remainder has county assessors.

A State Board of Equalization was established in 1892.

A State Tax Commission was created in 1917. It supervises the work of local assessors and also has the power to make reassessments of property.

An inheritance tax law was enacted in 1899 which taxed collateral heirs only. In 1917 it was extended to also include direct heirs. The rates are progressive. Supervision of the inheritance tax law is by the Probate Court.

A state income tax law was enacted in 1917 which is administered by the State Auditor.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the State Tax Commission.

MONTANA

Assessment is made annually by county assessors. Taxpayers are to report property to assessors. Refusal to furnish a list or falsifying the same is subject to a penalty of $500.

A classification of property law was enacted in 1919. It is divided into the following classes: Class one, annual net proceeds of mines and mining claims, to be assessed at 100 per cent of its full value; class two, household goods and furniture to be assessed at 20 per cent; class three, live stock and agricultural products to be assessed at 33⅓ per cent; class four, all land, town and city lots, with improvements, and manufacturing and mining machinery to be assessed at 30 per cent; class five, moneys and credits, including state, county and municipal bonds, but not including the monied capital embraced in the banking business, to be assessed at 7 per cent; class 6, shares of stock of banks to be assessed at 40 per cent; class 7, all property not included in the six preceding classes to be assessed at 40 per cent.

State and county taxes are collected by the county treasurer.

A State Board of Equalization was established in 1891.

An inheritance tax law was enacted in 1897, taxing direct heirs only. The inheritance tax law is administered by the State Treasurer.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

A business tax law was enacted in 1917. The rate is 1 per cent on net incomes of corporations from all sources within the state.

Public utilities are assessed by the State Board of Equalization.

NEBRASKA

Previous to 1904 real estate was assessed annually. Since then it has been assessed quadriennially, the last assessment being in 1916. Improvements over one hundred dollars in value are

added to the assessment-roll each year, while losses to property from fire, flood or otherwise are deducted. Land and improvements are assessed separately. Personal property is assessed annually.

Previous to 1904 property was assessed at full value. Since then it has been assessed on the basis of 20 per cent of actual value.

Taxpayers are required to list their personal property. The making of a false statement or the refusal to list property is punishable by a fine of from $50 to $2,000.

A State Board of Equalization was established in 1869.

State, county and municipal taxes are collected by the county treasurer.

An inheritance tax law was enacted in 1901, taxing both direct and collateral heirs, and the rates are progressive. Supervision of the inheritance tax law is by county judges.

There is no state income tax law.

A blue sky law, regulating investment companies, was enacted in 1919.

The main track, right of way and rolling stock of railroads are assessed by the State Board of Equalization.

NEVADA

All property is assessed annually. Taxpayers are required to make statements under oath of their property. Penalties for neglect or refusal to make statements are punishable by a fine of from $10 to $500.

Property is assessed by county assessors. State, county and municipal taxes are collected by county treasurers.

A State Board of Equalization was established in 1891. It was abolished in 1903.

A State Tax Commission was created in 1913. It supervises the work of county assessors and also acts as a State Board of Equalization in connection with county assessors.

An inheritance tax law was enacted in 1913, taxing both direct and collateral heirs, and the rates are progressive. Supervision of the inheritance tax law is by the District Court of the various counties.

There is no state income tax law.

Public utilities are assessed by the State Tax Commission.

NEW HAMPSHIRE

Property is assessed annually by township assessors. Inventory blanks containing eighteen questions are furnished each taxpayer, who is required to submit a sworn inventory of property. The penalty for omitting the inventory or for a false inventory is doomage of four times as much as the property would be appraised at, if duly returned.

A State Board of Equalization was established in 1878. It was abolished in 1911, when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1911. It consists of three members who are appointed by the Supreme Court. It supervises the work of the local assessors and makes the state equalization. Another duty is to supervise municipal accounting by the officers of counties, cities, towns, villages and school districts.

New Hampshire's first inheritance tax law was declared unconstitutional. The state constitution was then amended in 1903 and an inheritance tax law was enacted in 1905, which taxed collateral heirs only. In 1919 it was extended to also include direct heirs. The rates are progressive. The inheritance tax law is administered by the State Treasurer.

A proposition to amend the state constitution to provide for income taxation was defeated by the electors in November, 1920.

The commonwealth has a blue sky law regulating investment companies.

Poll taxes were increased in 1919 from $2 to $3 per poll and in addition a special tax of $2 for five years, so that all male inhabitants from twenty-one to seventy years of age, whether citizens or aliens, will have to pay poll taxes of $5 per year for the next five years. Veterans who have been in military service are exempt from the special tax of $2. If women suffrage prevails throughout the country the $5 poll tax is to apply to women as well as to men. The $2 special poll tax is to go to the state to create a sinking fund to be used to pay the bonded indebtedness of $1,500,000 created for the purpose of paying the bonus of $70 to each of the New Hampshire soldiers serving in the war against Germany.

Vehicles first became taxable in New Hampshire in 1803 and was restricted to wheel carriages of pleasure or for the conveyance of persons. The problem of assessing vehicles was not very difficult or troublesome until the advent of automobiles. The statute now reads vehicles in excess of the aggregate value of $100.

The State Board of Equalization assumed in 1878 the function of railroad assessment which had been performed since 1843 by justices of the Supreme Court. The State Board of Equalization also appraised the lines of telegraph companies in 1878 and in 1883 telephone companies. Public utilities are now assessed by the State Tax Commission.

Chapter 139 of the laws of 1919 was an exemption act for street railways shown to the public service commission to be incapable of earning sufficient money to pay operating expenses and taxes. Four out of fifteen street railways of the state received the benefit of this act in 1919.

NEW JERSEY

Property is assessed annually. Land and improvements are assessed separately.

A State Board of Equalization was established in 1891. In 1915 the State Board of Assessors was combined with the State Board of Equalization, the new body being known as the State Board of Taxes and Assessments.

An inheritance tax law was enacted in 1892, which taxed collateral heirs only. In 1914 it was extended to also include direct heirs. The rates are progressive. The inheritance tax law is administered by the Comptroller of the Treasury.

There is no state income tax law.

In 1873 the policy of separating the main stem from the other railroad property was introduced, the main stem to be taxed for state purposes while the other railroad property was to be taxed for local purposes. A railroad commissioner was provided which became a Board of Railroad Commissioners in 1876, and this in turn became the State Board of Assessors in 1888.

The main stem, franchise and rolling stock of railroads are assessed by the State Board of Taxes and Assessments. All other public utilities are assessed by local assessors, the assessments being based on the market value of the property.

NEW MEXICO

Property is assessed annually by county assessors. Taxpayers are required to furnish sworn lists of property. For a false list or failure to render a list the penalty is an increase of twenty-five per cent in the assessed value.

Lands are to be designated on the assessment lists according to their character, as agricultural, grazing, coal, saline, mineral, timber, and town, city or village lots.

A State Tax Commission was created in 1915. It supervises the work of county assessors.

An inheritance tax law was enacted in 1919, which taxes both direct and collateral heirs. The State Tax Commission appraises the property subject to inheritance taxation.

A state income tax law was enacted in 1919. According to this law the taxpayer may offset his income tax by presentation of a tax receipt for tax paid upon personal property. The income tax law is administered by the State Treasurer.

Railroad, telegraph, telephone and sleeping car companies are assessed by the State Tax Commission upon their actual value. The assessment is apportioned among the different counties on a mileage basis. The net output of mines is also assessed by the State Tax Commission.

NORTH CAROLINA

Assessment of real estate is in force for four years, except when improvements have been made or deterioration has taken place, to the extent of $100. Personal property is assessed annually.

Taxpayers are required to furnish sworn statements of their property to the assessors. Penalty for not listing property is $10 for every $100 withheld from the assessors.

State and county taxes are collected by the county sheriff.

A State Board of Railroad Commissioners was established in 1889 to make the valuation of corporate property. Practically all public utilities were included under this act. It was changed to a State Corporation Commission in 1899. In 1901 the State Corporation Commission was designated to also act as a State Board of Tax Commissioners and to supervise the work of local assessors.

A State Board of Equalization was established in 1907 to consist of the elective state officers. This board was to equalize the quadrennial assessment of real estate. In 1911 the State Board of Equalization was abolished and its work transferred to the State Corporation Commission.

North Carolina was the fourth state in the Union to enact an inheritance tax law. This law taxed collateral heirs only and was imposed in 1847. In 1897 it was extended to also include direct heirs. The inheritance tax law is administered by the State Corporation Commission.

There is a state income tax law which dates back to 1849. It taxes gross incomes in excess of $1,250 from salaries, fees, trades, professions and from property not already taxed. The state constitution provides that no income shall be taxed when the property from which the income is derived is taxed. Consequently, the receipts from the state's income tax are small.

Public utilities are assessed by the state corporation commission.

NORTH DAKOTA

Property is divided into two classes, assessed at 100 per cent and 50 per cent, respectively, of actual value. Class one, assessed at 100 per cent, includes all railroads and other public utilities, bank stock, land, exclusive of structures and improvements, flour mills, elevators, warehouses and storehouses, buildings and improvements upon town and city lots used for business purposes. Class two, assessed at 50 per cent, includes all live stock, agricultural implements, engines, threshing machines, structures and improvements used for homes upon town and city lots, and all other property not specifically mentioned in either class.

There is an exemption act accompanying the assessment of property which exempts all buildings and improvements upon farm lands; $1,000 upon all structures and improvements upon city lots occupied by the owners as homes; and $1,000 upon farming tools and implements and equipment of farms.

All property is assessed annually.

Taxes for state, county, town, city and school purposes are collected by county treasurers.

A State Board of Equalization was established in 1890.

A State Tax Commission was created in 1912. It consisted of three members who were appointed by the Governor. In 1919 it was abolished and a single Tax Commissioner substituted in its place. He is secretary of the State Board of Equalization and subordinate to it.

An inheritance tax law was enacted in 1903 which taxed collateral heirs only. In 1913 it was extended to also include direct heirs. The inheritance tax law is administered by the State Tax Commissioner.

A state income tax law was enacted in 1919. It is administered by the State Tax Commissioner.

Public utilities are assessed by the State Board of Equalization.

The commonwealth has a blue sky law regulating investment companies.

OHIO

Previous to 1825 lands had been entered upon the assessment-rolls according to schedules of values established by the Legislature. In 1825 a law was enacted providing for a valuation of all real estate and certain forms of personal property upon actual view by an assessor who was to be appointed for each county by the court of common pleas. Revaluations were made upon order of the Legislature in 1835, 1841, 1846, 1853, 1860 and decennially thereafter to 1910, when the period was shortened to four years.

Personal property must be listed annually by the owners. The law provides a penalty of 50 per cent in addition to the true amount of property as ascertained by the assessor in case a person refuses to list his property or makes a false list. Each county is made the unit for assessing real estate and the county auditor is the assessor of all real estate in the county.

A State Board of Equalization was established in 1825. It was abolished in 1910 and its duties transferred to the State Tax Commission.

A State Board of Assessors and Appraisers was established in 1893 for the valuation of the property of express, telegraph and telephone companies. It was abolished in 1910 and its duties transferred to the State Tax Commission.

A State Tax Commission was created in 1910. It supervises the work of local assessing officers, makes the state equalization and has the power to order reassessments when in its opinion property is not assessed at its true value.

State, county and local taxes are collected by the county treasurers.

An inheritance tax law, enacted in 1894, was declared unconstitutional in 1895. A new inheritance tax law was enacted in 1904, but that part applying to direct heirs was repealed in 1906. In 1919 the law was amended to also include direct heirs. The inheritance tax law is administered by the State Tax Commission. Half of the receipts of the inheritance tax law goes to the state and the other half goes to the localities.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

In 1910 the State Tax Commission assessed express, telegraph and telephone companies. Since 1911 the Commission has been responsible for the assessment of all public utilities.

An amendment to the state constitution providing for the classification of property to be taxed at varying rates was adopted by the people at the 1918 general election. But the Supreme Court of the state held that the adoption of classification of property was void, and the classification amendment being again submitted to the people at the general election in 1919, it was defeated.

Special assessments obtain throughout the state. Counties levy special assessments against benefitted land owners for the construction, reconstruction or repair of county roads and ditches. Townships levy special assessments against benefitted land owners for the construction of township roads and ditches. Municipalities levy special assessments against benefitted property owners for the construction of sewers, the paving of streets, the building of sidewalks, and, in a few instances, the lighting of streets.

OKLAHOMA

Property is assessed annually by county assessors. Every person owning taxable property is required to list his property and

the assessor is required to administer an oath as to the correctness of the list.

A State Board of Equalization was established in 1907. There is no State Tax Commission.

State, county and municipal taxes are collected by the county treasurers.

An inheritance tax law was enacted in 1907. This law was declared invalid by the courts and a new law was enacted in 1915. It taxes both direct and collateral heirs, and the rates are progressive. The inheritance tax law is administered by the State Auditor.

A state income tax law was enacted in 1910. It is administered by the State Auditor.

Two acts have been passed by the Legislature providing for a graduated land tax on ownership of more than 640 acres of land, said tax to be in addition to the general property tax. Both acts have been nullified by the courts.

Public utilities are assessed by the State Board of Equalization.

The commonwealth has a blue sky law regulating investment companies.

OREGON

Property is assessed annually by county assessors. Taxpayers are required under penalty of $50 to furnish the county assessor with a sworn list of his property. Tax maps are provided and in use by all assessors.

A State Board of Equalization was established in 1891. It was abolished in 1898.

A State Tax Commission was created in 1909. It supervises the work of county assessors and makes the state equalization.

State, county and municipal taxes are collected by the county sheriffs.

A state inheritance tax law was enacted in 1903, which taxes both direct and collateral heirs and the rates are progressive. Supervision of the inheritance tax law is by judges of the county court.

There is no state income tax.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the State Tax Commission.

A single tax proposition was submitted to the people in 1916 and was defeated by a vote of 43,800 for to 184,900 against.

PENNSYLVANIA

Since 1795 there has been triennial assessment of real estate. Personal property is assessed annually. Sworn lists of personal property are required to be made by the taxpayers. False returns are punishable by a fine of $500 and imprisonment not exceeding seven years, while 50 per cent is added for refusal to make return.

A State Board of Equalization was established in 1878.

Pennsylvania was the first state in the Union to adopt an inheritance tax law, this being a collateral inheritance tax law enacted in 1826. In 1897 it was extended to also include direct heirs, but this was declared unconstitutional by the courts in 1899. A new direct inheritance tax law was enacted in 1917. The inheritance tax law is administered by the auditor general.

There is no state income tax law.

There is no State Tax Commission.

Public utilities are assessed by the auditor general.

RHODE ISLAND

Property is assessed annually by town assessors. Taxpayers are required to deliver to the assessor a sworn list of property. Whoever neglects to furnish a sworn statement has no remedy if over assessed.

A State Board of Tax Commissioners was created in 1912. It has no powers of revision or control of local assessors or assessment.

An inheritance tax law was enacted in 1916, taxing both direct and collateral heirs and the rates are progressive. It is administered by the State Board of Tax Commissioners.

There is no state income tax law.

Public utilities are assessed by the State Board of Tax Commissioners on their gross earnings. This is in lieu of any other tax on their intangible personalty.

There is no uniform assessment date, and each town establishes its own date of assessment.

SOUTH CAROLINA

Real estate is assessed every fourth year. The last quadrennial assessment was in 1918. Personal property is assessed annually. Taxpayers are required to furnish sworn lists of property and its value. Failure to furnish such a list or furnishing a false list is punishable by an increase of 50 per cent in assessed value.

Town and city assessors are appointed by the Governor.

A State Board of Equalization elected by the county commissioners was established in 1868. It was abolished in 1915 when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1915. It supervises the work of local assessors and has the power to order the reassessment of property. Another duty is to compile and report statistics relative to the natural resources of the State.

State, county and municipal taxes are collected by the county treasurer who is appointed by the Governor.

South Carolina is one of the three states in the Union which has no inheritance tax law.

The state income tax law was repealed in 1918 and owing to poor administration but little revenue was ever received.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the State Tax Commission upon their gross earnings for business done within the state.

SOUTH DAKOTA

All property is assessed annually. Every person under oath must list his personal property. The penalty for refusal to make the required statements is an addition of 50 per cent to the value returned by the assessor.

Land and improvements are assessed separately. A law enacted in 1919 requires assessors to gather statistics regarding agriculture and live stock, such as acres of each crop sown or planted, land used for pasturage, growing fruit trees of bearing age, cows used for dairy purposes, etc. Such agricultural statistics to be tabulated and published by the State Tax Commission.

A State Board of Equalization was established in 1891. It was abolished in 1913 when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1913. It supervises the work of the local assessors, makes the State Equalization, and has the power to order the reassessment of any or all property.

An inheritance tax law was enacted in 1905 which taxes both direct and collateral heirs, and the rates are progressive. In 1915 the administration of the inheritance tax law was placed in the hands of the State Tax Commission.

There is no state income tax law.

A blue sky law was enacted in 1915, which regulates investment companies.

Prior to 1913 railroads, telegraph, telephone, express and sleeping car companies were assessed by the State Board of Equalization. Since 1913 they have been assessed by the State Tax Commission.

TENNESSEE

Real estate is assessed biennially and personal property annually by county assessors. The assessor is required to visit all realty and see personally each taxpayer. Changes to the extent of $200 in the value of real estate are to be noted annually by assessors as well as improvements thereon. The taxpayer must make oath to the amount of his property. The penalty for refusal to make the schedule or list or to take the oath is a fine of $10 to $50.

A State Board of Equalization was established in 1895.

There is no State Tax Commission.

An inheritance tax law was enacted in 1891, which taxed collateral heirs only. In 1895 it was extended to also include direct heirs. The rates are progressive. Supervision of the inheritance tax law is by the county court.

There is no State Income Tax Law.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the railroad commission.

State, county and municipal taxes are collected by the county trustee.

TEXAS

Property is assessed annually. The taxpayer renders to the assessor the list and value of his property, and the assessor is

required to swear the owner that the inventory contains a true, full and complete list of all his taxable property.

The state constitution adopted in 1876 contained a new article which authorized the legislature to provide for the equalization of assessed valuations, but no State Board of Equalization was established at that time.

A State Tax Board was created in 1905. It consists of the comptroller of public accounts, the Secretary of State, and a third member to be appointed by the Governor to be known as the tax commissioner.

An inheritance tax law was enacted in 1907 which taxes collateral heirs only. The rates are progressive. Supervision of the inheritance tax law is by judges of the county court.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

The intangible values of railroads are assessed by the State Tax Board and certified by it to the various county assessors to be placed on the assessment rolls. Street railways, gas, electric light, telephone and telegraph companies are assessed upon their gross receipts by the comptroller of public accounts.

UTAH

Assessment of property is made annually by the county assessor on the basis of sworn statements which he may require the taxpayers to furnish in regard to the amount and value of their property. Any person, after demand by the county assessor, refusing to make the sworn statement as to his property or to appear and be examined, forfeits to the county $100 for each refusal.

Land and improvements are assessed separately. Land maps are in general use.

A State Board of Equalization was established in 1896. It makes the state equalization and performs the same duties as a State Tax Commission.

State, county and municipal taxes are collected by the county treasurer.

An inheritance tax law was enacted in 1901 taxing both direct and collateral heirs. Supervision of the inheritance tax law is by the district court.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

Public utilities when entirely in one county are assessed by the county assessors, but when in more than one county they are assessed by the State Board of Equalization.

A constitutional amendment adopted in 1907 provided for the assessment of mines by the State Board of Equalization upon their net proceeds.

VERMONT

Real estate is listed or appraised quadrennially, the last listing being completed in 1918. The quadrennial appraisal is corrected annually by alterations only. Personal property is assessed annually. Each taxpayer is required to furnish the town listers a sworn inventory of his property subject to taxation, but the appraisal is made by the town listers. Wilfully omitting to make, swear to, and deliver an inventory or delivering a false inventory renders the taxpayer liable to double appraisal.

From 1820 to 1872 real estate was assessed triennially. Since then the assessment has been quadrennially.

A State Board of Equalization was established in 1820. It was abolished in 1882.

The office of State Tax Commissioner was created in 1882. He supervises the work of the town listers and is one of the two State Creamery Commissioners.

An inheritance tax law was enacted in 1896 which taxed collateral heirs only. In 1917 it was extended to also include direct heirs. The inheritance tax law is administered by the State Tax Commissioner.

There is no state income tax law.

The commonwealth has a blue sky law regulating investment companies.

A law was enacted in 1882 providing for a system of taxes on gross earnings which was applied to railroads, insurance, guarantee, express, telegraph, telephone, steamboat, car and transportation companies. This law was declared unconstitutional in 1890 and a system of ad valorem taxes on corporations was substituted. The State Tax Commissioner is required to appraise the property and franchises of the companies subject to the act.

VIRGINIA

Real estate is assessed every five years, the last assessment being completed in 1915. Assessors are appointed especially for this purpose by the circuit court of a county and corporation court of a city. Personal property is assessed annually by commissioners of the revenue who also make changes in the quinquennial assessment of real estate according to the improvements made thereon. Every person must fill out lists under oath of all his property with the value thereof under penalty of $30 to $1,000.

A State Tax Board was created in 1916 which exercises supervision over local tax officials. It consists of the Governor, auditor of public accounts and chairman of the State Corporation Commission.

Virginia was the second state in the Union to enact an inheritance tax law. This law was enacted in 1844 and taxed collateral heirs only. In 1916 it was extended to also include direct heirs. Supervision of the inheritance tax law is by the circuit court.

A state income tax law was enacted in 1843. The law is administered by the auditor of public accounts.

The commonwealth has a blue sky law enacted in 1918, which regulates investment companies.

Public utilities are assessed by the State Corporation Commission.

WASHINGTON

Real estate is assessed biennially in the even numbered years, but corrections are made annually. Personal property is assessed annually on the basis of a detailed list made by the taxpayer under oath. The penalty for failure to furnish a list or for a false list is $10 to $2,000. Assessment is made by county assessors.

A law was enacted in 1913 providing that property be assessed at 50 per cent of full value. Previous to 1913 the statute required property to be assessed at full value.

A constitutional amendment adopted in 1907 excludes mortgages, notes, accounts, moneys, certificates of deposit, tax certificates, judgments, state, county, municipal and school district bonds and warrants from the definition of property subject to taxation. Personal property is now almost exclusively tangible personalty.

A State Board of Equalization was established in 1891.

A State Board of Tax Commissioners was created in 1905. It was abolished in 1917 and in its place was substituted a single State Tax Commissioner, who is member of the State Board of Equalization, and supervises the work of the county assessors.

State, county and municipal taxes are collected by the county treasurers.

An inheritance tax law was enacted in 1901, which taxes both direct and collateral heirs and the rates are progressive. The inheritance tax law is administered by the State Tax Commissioner.

There is no state income tax law.

The first central assessment of corporate property was made in 1908 by the State Board of Tax Commissioners upon steam railroads, electric railroads, express, telegraph and private car companies. The county assessors remained in charge of the assessment of the property used for electric lighting, power and other purposes. The State Tax Commissioner now assesses the first named class of property.

WEST VIRGINIA

Property is assessed annually by county assessors. Land and improvements are assessed separately. Taxpayers are required to list their property under oath. Failure to render statement within time required subjects the taxpayer to a penalty of double assessment in the discretion of the assessor; a false list renders taxpayers liable to forfeiture, for each year, of ten per cent of the property not listed at any time during five previous years. Refusal

to be examined by the county assessor or failure to list property, or to list it truly, is subject to a penalty of $25 to $100.

The sheriff acts as tax collector and treasurer for the county.

In 1882 the State Board of Public Works was placed in charge of the state equalization. This is an ex officio body consisting of the elective state officers.

The office of State Tax Commissioner was created in 1904. He supervises the work of the county assessors.

An inheritance tax law was enacted in 1887 which taxed collateral heirs only. In 1907 it was extended to also include direct heirs. The rates are progressive. The inheritance tax law is administered by the State Tax Commissioner.

A special excise tax on corporations and joint stock companies was enacted in 1915. The rate is three-fourths of one per cent on their net income within the state.

The commonwealth has a blue sky law regulating investment companies.

In 1882 the State Board of Public Works was placed in charge of the assessment of railroads. In 1904 telephone, telegraph and pipe line companies were added to railroads to be assessed by the State Board of Public Works.

WISCONSIN

Real and personal property is assessed annually by town and city assessors. Land and improvements are assessed separately. Wisconsin is one of the three states in the Union that has always had an annual assessment of property.

A State Board of Equalization was established in 1852. It was abolished in 1903, when its duties were transferred to the State Tax Commission.

A State Tax Commission was created in 1899. It supervises the work of local assessors and has the power to make reassessments of property.

An inheritance tax law was enacted in 1899, which was declared unconstitutional by the Supreme Court of the state in 1902. In 1903 a new inheritance tax law was enacted, which taxes both direct and collateral heirs, and the rates are progressive. The inheritance tax law is administered by the State Tax Commission.

A constitutional amendment was adopted in 1908 permitting a state income tax, and in 1911 a state income tax law was enacted. It is administered by the State Tax Commission.

The commonwealth has a blue sky law regulating investment companies.

Public utilities are assessed by the State Tax Commission. Formerly they were taxed upon their gross earnings but in 1904 for steam railroads, and in 1908 for street railways, light, heat and power companies the ad valorem system of taxation was adopted.

WYOMING

Property is assessed annually by the county assessor on the basis of schedules made out by him or his deputies, but sworn to by the owner. The penalty for refusing to make oath as to the correctness of the list or for failing to list all property is the doubling of the ordinary assessed valuation. Land and improvements are assessed separately.

A State Board of Equalization was established in 1869, when Wyoming was a territory, and it was continued by the state constitution adopted in 1889.

The office of State Tax Commissioner was created in 1909. It was abolished in 1919.

An inheritance tax law was enacted in 1903, which taxed both direct and collateral heirs. Supervision of the inheritance tax law is by district judges.

There is no state income tax law.

A blue sky law was enacted in 1919, which regulates investment companies. It is administered by the state examiner.

In 1889 the State Board of Equalization was placed in charge of the assessment of railroads. In 1891 the duty of corporate assessment was broadened to include the telephone and telegraph companies, and in 1901 the various classes of car companies. Then in 1903 the State Board of Equalization was to ascertain and assess the gross output of mines.

5 counties of the State in which Real Estate Assessments decreased in 1919

57 counties of the State in which Real Estate Assessments increased in 1919

Real Estate Assessments decreased in Hamilton, Montgomery, Putnam, Suffolk and Yates

Real Estate Assessments increased in Albany, Allegany, Bronx, Broome, Cattaraugus, Cayuga, Chautauqua, Chemung, Chenango, Clinton, Cortland, Delaware, Dutchess, Erie, Essex, Franklin, Fulton, Genesee, Greene, Herkimer, Jefferson, Kings, Lewis, Livingston, Madison, Monroe, Nassau, New York, Niagara, Oneida, Onondaga, Ontario, Orange, Orleans, Oswego, Otsego, Queens, Rensselaer, Richmond, Rockland, Saint Lawrence, Saratoga, Schenectady, Schoharie, Schuyler, Seneca, Steuben, Sullivan, Tioga, Tompkins, Ulster, Warren, Washington, Wayne, Westchester and Wyoming.

TABULATION

OF THE

VALUE OF REAL ESTATE EXEMPTIONS

FOR THE YEAR 1919

Under Section 4 of the Tax Law

The following is a tabulation of the values of real estate exemptions, returned under section 4 of the Tax Law, in the various counties of the State, in two classifications. To the left of the aggregate is indicated ownership. The "Private Ownership" column on the left contains all exempt property other than that owned by the Federal government, the State or municipalities. To the right of the aggregate is the value of exemption classified as to use.

RECAPITU

COUNTIES	Property of United States	Property of State	Property of counties	Property of cities	Property of towns
